Resolution on the Survey and Settlement Reports for the year ending 30th September 1932.

Land Revenue.

CALCUTTA, THE 4TH AUGUST 1933.

RESOLUTION—No. 9001L.R.

Read—

The Survey and Settlement Reports for the year ending 30th September 1932.

The main traverse programme consisted of 848 square miles by post-pointing in the district of Rangpur and 29 square miles by ordinary method in the districts of Rangpur and Dinajpur. In addition, traverse survey was undertaken in respect of an area of more than 204 square miles scattered over various districts in the province. The Survey Department did also valuable work in comparative mapping, demarcation of boundaries and reproduction of maps. The total number of sheets printed during the year was 739,536 against 737,545 in the previous year.

2. Major settlement operations were in progress during the year in eight districts and minor settlement operations were carried on in twelve districts. The total area in the province for which a record-of-rights has been completed is 55,461 square miles out of 65,135 square miles to which the Bengal Tenancy Act applies.

3. The settlement operations were in their closing stages in the districts of Murshidabad-Birbhum, 24-Parganas and Chittagong, but were in full progress in Burdwan-Hooghly, Malda and Rangpur. The completion of *bujharat* in the Arambagh subdivision of the Hooghly district was delayed on account of illness among the field staff. The quality of work done by air survey is good and the methods are being continually improved. The new method of rectification by independent lines has proved satisfactory in the Rangpur settlement. Minor settlement operations for re-settlement of land revenue in Government and temporarily-settled private estates, which are being carried on in two circles under experienced officers, made satisfactory progress and an increase of revenue has been secured in almost every case in which settlement has been completed.

4. The total amount of survey and settlement costs to be recovered according to the programme for the year ending 30th September 1932, was Rs. 15,06,694-9-9 and the actual recovery amounted to Rs. 11,82,799-11-9. The amount realised by certificate procedure was very small in proportion to voluntary payments and landlords have been allowed to pay the costs by instalments in many cases.

5. The popularity of the record-of-rights is increasing and there is a growing demand for copies of records and maps. District Officers are unanimous in their opinion as to the value of the maps and records in every branch of administration.

6. Mr. J. B. Kindersley, I.C.S., was in charge of the departments up to the 30th March 1932, when he went on leave for six months, and Rai Bijay Bihari Mukharji Bahadur officiated for him for the rest of the year. The Governor in Council has much pleasure in acknowledging the efficiency and care with which the departments of survey and settlement have been managed during the year under report. His Excellency in Council is also pleased to direct that the good work done by the Survey Officers, Mr. I. Newton and Major C. B Sexton, Settlement Officers, Messrs. M. O. Carter, K. A. L. Hill, S. N. Roy (II), Rai Bijay Bihari Mukharji Bahadur and Rai Ramesh Chandra Sen Bahadur and charge officers Messrs. P. D. Martyn, A. Hughes and S. K. Haldar, as also by the other officers mentioned in the concluding paragraphs of the two reports, be recorded.

Order—Ordered that this resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

Secy, to the Govt. of Bengal.

CALCUTTA, THE 7th AUGUST 1933.

RESOLUTION—No. 1709Mne.

Read—

The Budget Estimates of income and expenditure of the Howrah Bridge for the year 1933-34.

Receipts.—The estimate of receipts for the year is placed at Rs. 3,81,200 against the budget and revised estimates of Rs. 3,16,340 and 3,54,186, respectively, for the previous year. The estimate of receipts from the East Indian Railway is placed at Rs. 2,58,000 on the basis of the revised estimate of the preceding year. The Bengal Nagpur Railway have contributed Rs. 26,000 towards the maintenance of the bridge during the year, 1933-34. In the estimate of receipts allowance has also been made for a grant of Rs. 50,000 from the proceeds of the motor vehicles tax during the year.

Expenditure.—The estimate of total expenditure for the year is Rs. 5,09,329 against the budget and revised estimates of Rs. 3,42,769 and Rs. 2,70,409, respectively, for the previous year. The increase is mainly due to the provision of Rs. 1,87,000 on account of special repairs to the bridge.

Resolved that the budget estimates for the year 1933-34 be approved under section 21 of the Howrah Bridge Act, 1871.

By order of the Governor in Council,

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 2nd August 1933.

First Forecast of the Cotton Crops of Bengal, 1933-34.

(NOTE.—On an average of the five years ending 1931-32, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore. As the late crop has not yet been sown, this forecast deals only with the early crop.

Character of the season.—The weather at sowing time was generally fair except in the district of Midnapore, where the condition was not favourable. In the Chittagong Hill Tracts the present outlook is not satisfactory, elsewhere the crop is in fair condition.

Area sown.—The area sown is reported to be 74,760 acres this year as against 74,345 acres in the corresponding forecast of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 11th August 1933.

First Forecast of the Sugarcane Crop of Bengal, 1933-34.

(NOTE.—On an average of the five years ending 1931-32, the area under sugarcane in Bengal has represented some 7·2 per cent. of the total area under sugarcane in British India.)

Character of the season.—At the outset the weather was generally favourable for planting of the crop. Subsequent conditions also proved beneficial for the germination and growth, except in parts of East Bengal where drought somewhat affected the crop. Present outlook, so far, is reported to be fairly favourable.

Area planted.—The total area planted with sugarcane for the province is reported to be 250,500 acres this year as against 229,000 and 233,200 acres reported in the corresponding and final forecasts of last year.

ARTICLES 1 TO 8 OF THE INTERNATIONAL CONVENTION RELATIVE TO MOTOR TRAFFIC CONCLUDED AT PARIS ON THE 24TH APRIL 1926 WITH ANNEX. C THERETO.

General Provisions.

ARTICLE 1.

The Convention applies to road motor traffic in general irrespective of the object and nature of the transport, subject, however, to the special national regulations regarding public passenger transport services and public goods transport services.

ARTICLE 2.

All passenger and goods-carrying motor vehicles running on any road to which the public have access, other than vehicles running on rails, are regarded as motor-vehicles for the purposes of the present Convention.

Conditions to be fulfilled by Motor Vehicles in order that they may be admitted to travel on a Road to which the Public have Access.

ARTICLE 3.

Every motor vehicle, in order to receive international authorisation to travel on any road to which the public have access, must either have been recognised as suitable for use on any road to which the public have access after an examination by the competent authority or by an association authorised by that authority or must conform to a type approved in the same manner. The vehicle must, in any case, fulfil the following conditions:—

I. The motor vehicle must be equipped with the following:—

(*a*) Strong-steering apparatus which will allow the vehicle to be turned easily and with certainty.

(*b*) Either two systems of brakes, independent of each other, or one system of brakes with two independent means of operation, of which one means of operation will function, even if the other fails to function, provided that in all cases the system used is really effective and rapid in action.

(*c*) If the weight of the motor vehicle when empty exceeds 360 kilog., a mechanism by means of which the vehicle can from the driver's seat be made to move backwards under its own power.

(*d*) When the combined weight of the empty motor vehicle and the weight of the maximum load which it is officially declared to be capable of carrying exceeds 3,500 kilog., a special mechanism, such as can prevent, in all circumstances, the vehicle from running backwards, and in addition a reflecting mirror.

The controls and steering apparatus must be so placed that the driver can manage them with certainty and at the same time have a clear view of the road.

The machinery must be such as to work with certainty and disposed in such a way as to avoid, as far as possible, all danger of fire or explosion; as not to constitute any sort of danger to traffic and so as not to frighten or seriously inconvenience by noise, smoke or smell. The vehicle must be equipped with a silencer.

The wheels of motor vehicles and trailer drawn by them must be fitted with rubber tyres or with some other tyres of equivalent elasticity.

The distance between the ends of the hub-caps must not exceed the maximum width of the remainder of the vehicle.

II. The motor vehicle must carry:—

competent authority. The registration number placed at the back as well as the distinctive mark referred to in Article 5 must be lit up as soon as they cease to be visible by the light of day.

For motor bicycles unaccompanied by sidecar, the number of lights in front may be reduced to one.

V. Every motor vehicle must also be equipped with one or more devices capable of effectively illuminating the road for a sufficient distance ahead unless the two white lights prescribed above already fulfil this condition.

If the vehicle is capable of proceeding at a speed greater than 30 kilom. an hour this distance must not be less than 100 metres.

VI. Lamps which may produce a dazzling effect must be provided with means for eliminating the dazzling effect when other users of the road are met, or on any occasion when such elimination would be useful. The elimination of the dazzling effect must, however, leave sufficient light to illuminate the road clearly for at least 25 metres.

VII. Motor vehicles drawing trailers are subject to the same regulations as separate motor vehicles in so far as forward lighting is concerned; the rear red light to be carried on the back of the trailer.

VIII. In so far as the limits regarding weight and dimensions are concerned, motor vehicles and trailers must satisfy the general regulations in force in the countries in which they travel

These certificates are valid for one year from the date of their delivery. The written particulars which they bear must always be written in Latin characters or in so-called English script.

The international certificates delivered by the authorities of one of the contracting States or by an association authorised by them with the counter-signature of the authority give the right to travel freely in all other contracting States and are recognised therein as valid without further examination. The right to use the international certificate may, however, be refused if it is clear that the conditions laid down in Article 3 are no longer being fulfilled.

Distinguishing Mark.

ARTICLE 5.

Every motor vehicle, to receive international authorisation to travel on a road to which the public have access, must carry, in a visible position in the rear, a distinguishing mark consisting of from one to three letters written on a plate or on the vehicle itself.

The dimensions and colour of this sign, the letters, their dimensions and their colour are given in the table contained in Annex. C of the present Convention.

Conditions to be filled by Drivers of Motor Vehicles before receiving International Authorisation to drive a Motor Vehicle on a Public Road.

ARTICLE 6.

The driver of a motor vehicle must possess qualifications which provide a reasonable guarantee of public safety.

In so far as international traffic is concerned, nobody may drive a motor vehicle without having received a special authorisation delivered by a competent authority or by an association authorised by it after giving proof of his competence.

This authorisation cannot be granted to persons of less than 18 years of age.

---

(1) Not reproduced. The form prescribed for the International Certificate is at Form A in the third schedule.

Delivery and Recognition of International Driving Permits.

ARTICLE 7.

In order to certify, for international traffic, that the conditions laid down in the preceding article have been fulfilled, international driving permits are delivered on the model and according to the remarks contained in Annexes D and E of the present Convention (1).

These permits are valid for a year from the date of their delivery and for the categories of motor vehicles for which they have been delivered.

For the purposes of international traffic the following categories have been drawn up:—

A. Motor vehicles of which the combined weight of the empty vehicle and the weight of the maximum load which it is officially declared to be capable of carrying does not exceed 3,500 kilog.,

B. Motor vehicles of which the total weight, made up as above, exceeds 3,500 kilog.

C. Motor cycles with or without a side-car.

The written remarks on international permits are always written in Latin characters or in so-called English script.

International driving permits delivered by the authorities of a contracting State or by an association authorised by them with the counter-signature of the authority authorise the holder, in all other contracting States, to drive motor vehicles which come within the categories for which they have been delivered and are recognised as valid, without re-examination, in all the contracting States. The right to use the international driving permit may, however, be refused if it is evident that the conditions prescribed in the previous article have not been fulfilled.

Observance of National Laws and Regulations.

ARTICLE 8.

The driver of a motor vehicle travelling in a country is bound to conform to the laws and regulations regarding traffic which are in force in that country.

An extract from these laws and regulations may be given to motorists on entry into a country at the office at which the Customs formalities are carried out.

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 1510L.C.—17th August, 1933.—The following report of the Select Committee on the Bengal Money-Lenders Bill, 1933, with the Bill as amended by the Committee on recommitment, is hereby published for general information.

Report of the Select Committee to whom the Bengal Money-Lenders Bill, 1933, by Khan Bahadur Maulvi Azizul Haque, M. L. C., was recommitted.

[" *Original clause* " *means clause as recommitted to Select Committee.*]

We, the members of the Select Committee of the Bengal Legislative Council, to whom the Bengal Money-Lenders Bill, 1933, was recommitted by a motion carried in the Bengal Legislative Council on the 23rd February, 1933, have the honour to submit this our report with the Bill as amended by us annexed. The clauses of the Bill, as amended by us, have been consecutively numbered throughout, all other matter being removed.

We do not consider that the Bill has been so altered as to require republication.

2. The further changes made in the Bill on recommitment are detailed below :—

Clause 1. —We have widened the extent of the Bill by making it applicable to the whole of Bengal except as regards loans granted within the limits of the ordinary original jurisdiction of the High Court or under contracts made within those limits.

Clause 2.—*Original clause 4.*—No change.

Clause 3.—*Original clause 14.*—We have kept the rate of 12½ *per cent.* in the case of secured loans, but have enhanced it from 18¾ *per cent.* to 25 *per cent.* in the case of unsecured loans, beyond which figures the interest would be presumed to be usurious.

We have omitted from this clause the provision relating to the principle of Damdupat on the ground that it is an unwarrantable assumption that because the total interest due *plus* the total interest paid exceeds the principal, the interest is excessive and the transaction unfair and because we think that this principle can be more suitably applied in clauses 4 and 6.

Clause 4. —This is a new clause. We have given the Court a discretion to apply the principle of Damdupat, as regards loans made before the commencement of the Act, in which it is found in any suit that the arrears of interest exceed the principal. In such cases it is proposed to empower the Court to limit the amount of interest recoverable to the amount of the principal, unless it is satisfied that the money-lender had reasonable grounds for not enforcing his claim earlier.

Clause 5.—*Original clause 10A.*—This clause has been revised so as to make it clear that, if a contract provides for the payment of compound interest, the rate of interest of any kind recoverable thereunder by suit shall not exceed 10 *per cent.* If a lender desires to lend money at a rate which will, in any circumstances, exceed 10 *per cent.* he must lend it on simple interest.

Clause 6. —*Original clause 14A.*—We think that the scope of the original clause was too wide and so we have restricted the scope of the clause by limiting its application to the arrears of interest which a money-lender may recover under a decree of the Court.

Clause 7.—*Original clause 18A.*—We have inserted the words " in the prescribed form " after the words " on demand made " and have taken powers under clause 10 to prescribe a form.

Clause 8.—*Original clause 18B.*—We have substituted the words " in respect of the loan concerning which " in this clause for the words " the principal of the loan " so as to provide that, on failure on the part of the money-lender to supply the requisite particulars, no interest shall be charged on the loan as a whole, including interest.

Clause 9.—*Original clause 19A.*—We have omitted the words "or by registered post with acknowledgment due" in sub-clause (*1*) in order to minimise the risk of fraud on the part of dishonest debtors. We have also made a slight addition in this sub-clause to provide that the Court shall keep the sum deposited by the debtor only after it has received the fee prescribed in respect of such deposit.

Clause 10.—*Original clause 19B.*—We have made consequential amendments in clause 10, sub-clause (*2*) which have been rendered necessary by the modifications that we have suggested in clauses 7 and 9.

We recommend that the Bill, as amended by us, be passed.

N.B.—The signatures of Mr. Syamaprosad Mookerjee, Raja Bahadur Bhupendra Narayan Sinha, of Nashipur, and Mr. H. S. Suhrawardy (now in England) had not been received up to the time of printing the Report.

Mr. A. G. R. Henderson, Mr. W. C. Wordsworth and Rai Bahadur Sunil Kumar Gangali have since resigned as Members of the Council.

Minute of dissent by the Hon'ble Sir William Prentice, K.C.I.E., C.S.I.

I think the rate of interest on secured loans which is fixed by clause 3 at 12½ *per cent.* is placed too low. I would prefer to see it raised to 15 *per cent.*

Minute of dissent by Khan Bahadur Maulvi Azizul Haque, M.L.C.

While I wish the Select Committee would have gone further than what has been settled in the Committee, the Bill, as now settled, represents the largest common measure of agreement in a Committee representing all shades of opinion. In its present form, it is a distinct advance from the present; and fully accepting the provisions of the Bill as settled, I put in this note to explain my position.

Minute of dissent by Mr. N. K. Basu, M.L.C.

I am very sorry I cannot agree to the revolutionary change made in clause 10A (now clause 5) of the Bill.

(1) The alteration now made goes very much beyond the principles of the Bill as it emerged from the Select Committee in January.

(2) It goes even beyond the provisions of the Bill (see original clause 10, proviso) as it emanated from the member in charge.

(3) It is wrong in principle and penalises the introduction of what may be a mere penalty clause in a contract of loan.

(4) It is calculated to defeat its own object. I am sorry to have to observe that the majority in the Committee lost sight of realities and in my judgment surrendered reason to idealism.

(5) The Government officers consulted were practically unanimous that in case of contracts stipulating for the payment of compound interest in excess of 10 *per cent. per annum*, judgment should not be given for compound interest exceeding that rate. The provision now made is due to the inability of untrained minds to grasp the real signification of that opinion.

Clause 14 (now clause 3).—The rates provided are much too low. They ought in no circumstances to be lower than that mentioned in the original Bill, *viz.*, 37½ and 18¾ for unsecured and secured loans, respectively.

Clause 18B (now clause 8).—The penalty for a default in complying with a demand for information is much too drastic. The Committee has chosen to forget that the money-lender may not in all cases be a shrewd and hard business man but may be a *purdanashin* and illiterate woman, a person whose sole means of subsistence is the interest brought in by a very small capital. The loss of such interest on what may be a purely unwitting default does not seem to me to be called for in every case without exception.

One must not forget that amongst debtors there may well be many wily and hardswearing persons willing and able to take advantage of the money-lender who has helped him in time of difficulty.

The sympathy of the legislator need not be exhausted upon the borrowers of money who after all cannot be supposed to do a public service by taking loans.

I do not join in the recommendation that the Bill be passed.

Minute of dissent by Dr. Naresh Chandra Sen Gupta, M.L.C.

In my judgment the Bill as amended by the Select Committee falls very far short of requirements. It will not materially relieve the indebtedness of the people.

No legislation limiting usury can alone solve the problem. What is wanted is a more comprehensive action, including compulsory composition of existing debts.

As a mere legislation for the limitation of usury, I think the rates of interest finally agreed to to be too high.

On the other hand, the provision of clause 4 seems to be unduly harsh and drastic. There are numerous cases in which money lent at very low rates of interest, even so low as 6 *per cent.* simple interest has now grown to much more than double the principal. There is no reason why in such cases, where no question of usury arises, the Court should have the power to refuse interest beyond the amount of the principal. The Courts are given a discretion, but I see no reason why even such a discretion should be given where the rates of interest are low, merely because the generous lender has been kind enough to grant time to the borrower, simply out of commisseration. There is every justification for every limitation proposed on money lent after the Act. But there is none at all why the penalty should be imposed on the money-lender for doing an act of kindness, which he could do under the law as it has stood till now, without losing his interest.

It is worth noticing that the provisions of clause 3 which relate to loans made after the Act are far less harsh than those of clause 4 which relate to loans made before the Act

The only thing that could be justifiably done is to provide that in the case of loans made before the Act, if it is shown that the interest exceeds the principal, the Court may presume the interest to be usurious, leaving it open to the lender to prove the contrary.

Minute of dissent by Maulvi Abdul Hamid Shah, M.L.C.

I sign the Report of the Select Committee subject to the following minute of dissent :—

Clause 3.—I think the rate of interest on unsecured loans which is fixed at the rate of 25 *per cent.* is too high. I would prefer it to be 18¾ *per cent.*

Clause 8. - I think a penalty clause is most necessary for supplying false or incorrect particulars ; thereby I propose to insert the following new clause :—

"8A. If a money-lender to whom a demand has been made in accordance with the provisions of sub-section (*1*) of section 7 supplies false or incorrect particulars, his entire claim shall be disallowed in respect of the loan concerning which the demand was made."

Clause 9.—I would also like to insert the following sub-clause :—

"(*3*) Where a debtor has sent to a money-lender by postal money-order any sum of money due from him to the money-lender in respect of a loan and the money-lender has refused to accept the same, all interest on such sum will be stopped from the date of refusal, and the money-lender will not be entitled to get any cost for such sum in a subsequent suit, and the money-lender will be liable for all cost incurred by the debtor in sending the money by postal money-order and in depositing the same in Court after refusal."

Minute of dissent by Babu Khetter Mohan Ray, M.L.C.

I object to clause 4 being included ; it should be omitted. The principle of Damdupat should not be given retrospective effect.

In clause 5 I would substitute 12 *per cent. per annum* in place of 10 *per cent. per annum* ; "three months" in place of "six months."

I would delete clauses 7 and 8, as they are likely to encourage false defences.

Minute of dissent by Kazi Emdadul Hoque, M.L.C.

Clause 3.—If the object of the Bengal Money-Lenders Bill is to bring relief to the poor cultivators, the rates of 12½ *per cent.* and 18¾ *per cent.* of interest *per annum* for secured and unsecured loans, respectively, as recommended by the Select Committee for the first time appears to me to be already too excessive and to raise 18¾ *per cent.* interest to 25 *per cent.* for unsecured loan will be doing positive injury to the borrowers, mostly cultivators, who in certain localities generally get from registered companies unsecured loan at 12 *per cent. per annum* when the amount borrowed is one hundred rupees or upwards.

Clause 4.—The rule regarding Damdupat is a statutory provision and is calculated to prevent the money-lenders from swallowing the small landed properties of the borrowers by allowing their interest to accumulate till at last the principal and the interest reach to such a huge amount that it goes beyond the powers of the borrowers to protect them. That being so, it should be made compulsory for the Court to invariably apply the Damdupat rule in respect of loan prior to the commencement of this Act.

Clause 5.—So far as this clause is concerned, I am of opinion that the bar to recovery of interest in the circumstances mentioned in the clause ought to have been maintained to put a restraint on the greed of the avaricious money-lenders who are born as it were to suck the life-blood of the poor cultivators.

Minute of dissent by Mr. Ananda Mohan Poddar, M.L.C.

Clause 2 (*1*).—The definition of "money-lender" should include creditors who lend in kind and are repaid in kind. Unless loans in kind are brought within the scope of the Bill, it will fail to protect the agriculturists in many parts of Bengal.

Clause 3.—I am opposed to fix by statute a maximum rate of interest It is very doubtful whether legislative enactment can regulate the rate of interest. If, however, any maximum rate is to be fixed, it should be fixed at 18¾ *per cent. per annum* for secured loans and 37½ *per cent. per annum* for unsecured loans as was provided in the original Bill. Rates lower than these would be calculated to impair credit facilities in rural areas by rendering it extremely difficult, if not impossible, to secure loans on such terms.

The words "after the commencement of the Usurious Loans Act, 1918" should be deleted. There is no reason why creditors should be penalised for their forbearance to sue debtors in respect of transactions after the passing of the Usurious Loans Act and before the passing of the new Act. Retrospective operation as sought to be given by this section cannot be supported.

Clause 4.—I think this clause should be omitted altogether. There is no reason why retrospective effect should be given in case of transactions made before the passing of this Act.

Clause 5.—I am not in favour of restricting the compound interest, as it will only lead to frequent and unnecessary renewals of loans on fresh bonds with interest added to the principal and will only force the money-lender to have recourse to the Courts oftener than at present.

The clause is not very happily worded. As redrafted by the Select Committee it means that under a contract which provides for the payment of compound interest, no interest above 10 *per cent.* shall be recoverable in any bond whether secured or unsecured. Under clause 3 the rate allowed is 12½ *per cent.* and 25 *per cent.* for secured and unsecured loans, respectively, but the terms of this clause are inconsistent with those provided in the former. This will only create confusion and will impair credit facilities in trade and commerce to a very great extent.

Clause 6.—This clause should be deleted. After the restriction of the rate of interest, further restriction of the total amount recoverable should not be imposed by introducing this rule of Damdupat.

Clause 7 (*1*).—I don't think that this clause will be of any practical value ; it will only present administrative difficulty.

Minute of dissent by Mr. J. N. Basu, M.L.C.

Clause 2.—In this clause the definition of " money-lender " should exclude Banks, Provident Fund Societies and Insurance Companies as also Societies like the Co-operative Societies, which deal only with members and not with the general public and which offer benefits to the members in various ways. The English Money-lenders Act excludes, amongst others, bodies corporate which lend money, and Societies of the nature of friendly Societies.

Clause 3.—(*1*) In this country, where there are prompt returns obtained out of capital in various trades, particularly at certain seasons of the year, the stipulation that there should be no rests, as regards the calculation of compound interest, of less than six months, might tend to contraction of business and trade owing to the shrinkage of financial facilities which is likely to happen if rests of not less than six months are insisted on in every case.

(*2*) The maximum rate of interest on secured loans if fixed at 15 *per cent. per annum* will not in many cases cause any hardship, if actual agricultural conditions and the movements of agricultural produce are taken into account.

Clauses 4 and 5.—A proviso should be added to these clauses that the Court may allow interest on the amount decreed.

Clause 6. Having regard to the difference, which in some cases is large, between the prices paid to the actual producers and the prices paid by the consumers or shippers, the fixing of a maximum rate of 12 *per cent. per annum* in cases where compound interest is charged will not be a high or exacting rate, as it will pay the producer or small village trader to borrow money at that rate in order to do a larger volume of cultivation or trade and to earn larger profits.

Clause 7.—The debtor should, when demanding a statement of account, furnish the lender with his full address.

Clause 8. While there are illiterate and inexperienced debtors, it should not be ignored that there are a large number of illiterate and inexperienced lenders including women. The procedure contemplated by clause 7 is complicated. Non-compliance with that procedure should not deprive the lender of all return on his or her money, as in many cases such return, specially with women and minor children left with a small capital, is probably the only means of livelihood. A smaller rate of interest may be fixed in cases where there has been non-compliance with the provisions of clause 7, or it may be provided that in the event of a law suit for recovery of the money, no costs should be allowed to the lender.

Minute of dissent by Maulvi Tamizuddin Khan, M.L.C.

I sign the Report subject to the following note of dissent :—

In my opinion the maximum rate of interest provided for in clause 3 in the case of unsecured loans (*viz.*, 25 *per cent.*) is too high. This should be reduced to 18¾ *per cent.* as was previously decided upon.

The provision that the amount of interest recoverable by suit should not exceed the principal is a move in the right direction, but the condition with which it is hedged round will make the provision almost nugatory. In my opinion, the condition should be removed and in no case an amount larger than the principal should be recoverable as interest. The interest paid before the date of suit should be taken into account in calculating the amount recoverable, i.e., no amount should be decreed as interest, which added to what may have already been paid exceeds the principal.

Clauses 4 and 6 should be amended accordingly.

Compound interest in my opinion is an unmitigated evil, and public interest demands that it should no longer be allowed to exist. As regards future transactions, compound interest should be made illegal and irrecoverable Regarding transactions already made, which provide for the payment of compound interest, either compound interest not exceeding 10 *per cent* with rests at intervals of 6 months or more or simple interest at rates not exceeding 12½ *per cent.* in the case of secured loans and 18¾ *per cent* in the case of unsecured loans should only be recoverable.

Minute of dissent by Mr. Shanti Shekhareswar Ray, M.L.C.

I regret I have to record a minute of dissent on this occasion. I am inclined to think that the attitude of the Government towards the problem is not what it should be. Instead of grappling with an evil courageously, they prefer, as usual, to go on tinkering with it. I must admit that at an early stage of the discussions and in connection with the first report of the Select Committee, the Hon'ble Member in charge of the Department showed a genuine desire to help the agriculturists and other victims of unscrupulous money-lenders, but the present attitude of the Government is, more or less, one of helplessness in the matter. I hope the Government will realise the seriousness of the situation in the countryside and bring in a measure which may afford real relief to the agriculturists and save them from being dispossessed and rendered homeless and landless by a class of money-lenders in the light of the opinions expressed by their own officers and in conformity with the demands of the public. Legislation of this kind is sure to hurt certain interests, but I am confident that in the larger interest of the country and in their own interest too, the parties who will be called upon to make a sacrifice will rise to the occasion cheerfully. It is for the Government to give a lead. In my opinion, the Bill as it emerges from the Select Committee is a curious jumble of inconsistencies—bristling with invidious distinction between Calcutta and mufassal interests, loans in kind and in cash, and last of all different standards of maximum rate of interest calculated on no intelligible basis. The Bill as it stands now will not prove helpful to the borrower in whose interest it is pushed forward.

Minute of dissent by Khan Bahadur M. A. Momin, M.L.C., on the Bengal Money-Lenders Bill, 1933.

Clause 3.—I consider any rate of interest higher than 18¾ *per cent.* excessive. I propose that "25 *per cent.*" in clause 3 be replaced by "18¾ *per cent.*"

Clauses 4 and 6.—In my opinion no interest should be recoverable if it exceeds the principal. The clauses as framed in the Bill would entitle a money-lender to obtain a decree for a sum as interest much exceeding the principal if the interest already paid is not taken into account. I, therefore, suggest that the following words be added after "arrears of interest," viz., "together with interest already paid" in clause 4 and that the words "arrears of" be deleted from clause 6.

Minute of dissent by Rai Satyendra Kumar Das Bahadur, M.L.C., on the Bengal Money-Lenders Bill, 1933.

Clause 1(2) not only Calcutta but all municipal areas should be excluded from the operation of the Bill.

Clause 2(1).—The "money-lenders" should include creditors who lend in kind and they should also be brought within the purview of the Bill. As the Bill is intended to afford protection primarily to agriculturists unless loans in kind are brought within the scope of the Bill it will fail to protect the agriculturists who need such protection.

Clause 4 should be omitted as the principle of *Damdupat* should not be given retrospective effect.

Clause 5.—12 per cent. per annum should be substituted for 10 per cent. per annum and for the words "six months" the words "three months" should be substituted.

Clauses 7 and 8 should be deleted as they will invariably encourage false defences.

THE BENGAL MONEY-LENDERS BILL, 1933.

(As amended by the Select Committee on recommitment.)

8. If a money-lender to whom a demand has been made in accordance with the provisions of sub-section (*1*) of section 7 fails without reasonable excuse to comply therewith within a month from the date of the service of the demand, interest shall not be chargeable in respect of the loan concerning which the demand was made for so long as the default continues. BENGAL LEGISLATIVE COUNCIL
DEPARTMENT.

NOTIFICATION.

No. 1511L.C. — 17th August, 1933. The following report of the Select Committee on the Bengal Wakf Bill, 1933, with the Bill as settled by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Wakf Bill, 1933, by Maulvi Abdul Ghani Chowdhury, M.L.C.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Wakfs Bill, 1932, was referred by a motion carried in the Bengal Legislative Council on the 5th August, 1932, beg to submit this our report on the Bill.

The Committee beg to remind the Council of the following facts. They met for the first time on the 30th August, 1932, and in pursuance of the instructions of the Council decided that the Bill be circulated for the purpose of eliciting opinion thereon to certain Associations and individuals by the 20th October, 1932. In the meantime Government appointed a Committee, with Sir Zahid Suhrawardy as its President, to advise them. The Select Committee met again on the 17th November, 1932. At that meeting they considered the opinions so far received and postponed its meeting pending the receipt of the Report of the Sir Zahid Suhrawardy Committee. The Report of the Sir Zahid Suhrawardy Committee was received by Government on the 21st February, 1933.

The above facts were reported to the Council in the preliminary report presented by the Select Committee at the last session.

Since the presentation of the preliminary Report, the Select Committee met and decided that the Bill as drafted by the Sir Zahid Suhrawardy Committee should be circulated for the purpose of eliciting opinion thereon by the 1st May, 1933. The said Bill was circulated for opinion to the same public bodies and individuals to whom the original Bill had been circulated. The Select Committee met in Darjeeling in June, 1933, and completed their examination of the Bill.

The Bill as re-drafted was examined again at meetings held in Calcutta on the 14th and 15th July, 1933.

We have the honour now to submit our report with the Bill as settled by us annexed.

In the present case, in order that the Council may more conveniently deal with the further stages of the Bill, we have shown our draft of the Bill by itself, and have, where necessary, inserted in the margin of the clauses of the draft Bill references indicating from where they have been taken.

Our draft should be taken as substituting the clauses of the Bill as introduced in Council, which may be treated as having been omitted in Select Committee.

We have also for ready reference attached as Appendices to our Report—

(*1*) the Bill as introduced in Council (Appendix I), and

(*2*) the draft of the Bill prepared by the Sir Zahid Suhrawardy Committee (Appendix II).

1. The Bill was published in English in the *Calcutta Gazette* on the 1st September, 1932.

2. We consider that the Bill has been so altered as to require re-publication.

3. The most important change we have made is in connection with the agency or machinery that should be employed to give effect to the principles underlying the Bill as introduced in Council, and accepted by the House, *viz.*, the proper control of wakfs.

We consider that the agency or machinery suggested by us provides the best possible solution. Broadly speaking, our scheme is—

(*1*) that the Commissioner of Wakfs shall be the administrative and executive authority under the Bill,

(*2*) he will be assisted by a Board who will act largely in an advisory capacity, and

(*3*) judicial proceedings in the case of wakfs will, in future, be taken by a Judge, sitting with two Mussalman Assessors.

4. The following points may be noted in regard to the more important clauses of the Bill, *viz.*—

Clause 1.—We have taken power to bring the Act into force either in whole or in part.

Clause 2.—We have made it clear that the Act will apply to all existing wakfs, and to those which may be created in the future, any part of the property of which is situated in Bengal.

Clause 3. We have given power to the Board, with the previous sanction of the Local Government, to exempt any wakf from all or any of the provisions of the Act.

Clause 4 is the usual definition clause.

Chapter II, clauses 5 to 23, deals with the constitution of the Board, the appointment of the Commissioner of Wakfs, the officers and servants to be appointed under the Act, the location of the office of the Board and Commissioner, and matters ancillary thereto. It will be noted in this connection that in the constitution of the Board (clause 6), to be formed by the methods of election and nomination, we have provided for the special representation of the Shia community and also of mutwallis. It will be noticed further that for the first three years, the elective element is restricted to the election of two members from the Bengal Legislative Council and that thereafter it is extended to mutwallis of enrolled wakfs. It is obviously impossible to include the latter as an elective body in the first elections as the enrolment of wakfs cannot be effected till the Act is in force and the Board is functioning.

In **clause 7** we have also provided that the members of the Board shall be persons professing the Mussalman faith.

In **clause 8** we have provided that the term of office of members except in the case of the first elections and nominations under the Act, when the period is three years, shall be limited to five years, but we have added a provision that a person ceasing to be a member by reason of the expiration of the term of his office may be re-appointed or re-elected as the case may be.

Clauses 10, 11 and 12 contain the usual provisions dealing with the removal and resignation of members and the filling of casual vacancies.

Clause 13 lays down that the Commissioner shall be the President of the Board and shall have a second or casting vote and that the necessary quorum shall be three.

Clauses 14 to 19 deal with the appointment of the Commissioner, the salary and terms of his appointment, the grant of leave to the holder of the post, acting appointments in his place, his removal from office, etc.

The more important points which may be referred to are—

Clause 14.—The appointment shall, in the first instance, be ordinarily for five years and the Commissioner may be re-appointed at the expiry of this period.

This clause has also been so drafted as to permit of the appointment of the Commissioner for a lesser period than five years.

Clause 15.—The Commissioner shall be a whole-time officer of Government but under clause 17, the Local Government may, after consultation with the Board, depute him to other duties. It was thought expedient to provide for the latter contingency as it may be necessary for any special

reason from time to time to depute the Commissioner on special duty in connection with questions or inquiries relating to wakfs in general, e.g., conferences that may be called in regard to important questions relating to wakfs as a result of action taken, for instance, in the Imperial Legislature and the like. We have, however, provided for the carrying on of his duties in such cases by the appointment of another person to act as Commissioner in his absence.

We did not think it necessary to provide any special qualifications for the office of the Commissioner other than that he should be a Mussalman.

Clause 20 provides for the "Commissioner of Wakfs" being a corporation sole. This follows the decision to vest the Commissioner generally with the administrative and executive duties under the Act.

Clause 21 deals with determining the number, designations and grades of the officers and servants necessary for carrying out the duties under the Act and the amount of their salaries, fees and allowances, and leaves such matters to be decided by the Board.

Clause 22 vests the actual power of appointment of the officers and servants in the hands of the Commissioner of Wakfs with the proviso that the appointment of officers carrying a salary of Rs. 100 or over shall require the approval of the Board.

In **clause 23** we have provided that the office of the Commissioner and the Board shall be situated in Calcutta.

Chapter III, clause 24, deals with the duties and functions of the Commissioner and the Board. These duties and functions have been so arranged as to follow, in the main, the principle accepted by the Committee, as previously referred to, that executive and administrative functions, as far as it is expedient should vest in the Commissioner, while the Board should function more or less in an advisory capacity. We have, as will be seen from the Bill, in one or two important matters, made the Board the deciding authority.

Clause 25 is of great importance from the point of view that it safeguards an important principle by making it mandatory on the Commissioner of Wakfs and the Board of Wakfs to act in all matters under the Act in conformity with the directions of the wakif.

It, however, contains a necessary proviso that where any provision in a wakf deed has become obsolete, impossible of execution owing to efflux of time or changed conditions, the Board may revise any provision in the wakf deed with a view to further the objects of the wakf or the interests of the beneficiaries thereunder.

Clause 26 has been inserted by the Committee to enable the Board to authorize the Commissioner to exercise and perform any of the Board's duties, subject to the control of the Board. This will obviate delays.

Clause 27.—In this clause necessary powers are taken, for the convenience of wakfs situated in the mufassal, for the exercise of all or any of the powers conferred on the Commissioner of Wakfs through the agency of Commissioners of Divisions or Collectors or through any other person whom the Commissioner of Wakfs may appoint for such purpose.

Clause 28 empowers the Commissioner of Wakfs to seek the advice of the Board, if in any case he thinks this necessary, in the discharge of his functions. This is in keeping with the main principle governing the establishment of a Board.

Clause 29.—This clause is of great importance from the point of view that it enables any person interested in a wakf to approach the Commissioner to institute an investigation into the administration of a wakf or for the examination and audit of the accounts of a wakf.

It must be noted that by the expression "person interested" used in this clause, read with the definition clause, the initiative of approach to the Commissioner is restricted to a person who is entitled to receive any pecuniary or other benefit from the wakf. A further restriction has, in the opinion of the

Committee, rightly been provided by limiting the inquiry to the examination and audit of accounts relating to a period not more than three years prior to the date of such application.

Clause 30 gives necessary power to the Commissioner to summon witnesses and compel the production of documents.

Clause 31 provides that the Commissioner shall, as far as possible, place all information before the Board which they may consider necessary for the disposal of any matter before them.

Clause 32 is important from the point of view that it restricts the power of the Commissioner to call for documents and information only from a person interested in the wakf—*see* the definition of "person interested in a wakf."

Clause 33 is one of the basic clauses of the Bill and provides the machinery for carrying out one of the most important functions of the Commissioner of Wakfs in his capacity as "the guide, counsellor and friend" of the mutwalli.

This clause provides :—

(*1*) that the mutwalli when in doubt in regard to any undertaking in connection with his wakf may seek the advice of the Commissioner of Wakfs by petition,

(*2*) that, if at all possible, the Commissioner after due inquiry, to be made in the manner prescribed in sub-clauses (*2*) and (*3*) of the clause, may give that advice,

(*3*) in cases where the Commissioner feels that he is not in a position to deal suitably with the petition he may refer the mutwalli to the court, and

(*4*) the court, to whom the matter is referred, shall be bound to give its opinion, advice or direction.

The Select Committee consider that this provision will be of great help to mutwallis. Moreover, where a mutwalli acts on such opinion, advice or direction he is indemnified against any charge of maladministration, etc., provided he has not concealed or misrepresented anything to the Commissioner of Wakfs or the court in the submission of the case.

Clause 34 relates to the creation of a Reserve Fund for certain purposes which are specifically mentioned in the clause.

Clause 35.—This clause gives power to the Commissioner, in the case of the refusal or failure of the mutwalli to pay, to pay from the Wakf Fund any revenue, cess, rates and taxes due to the Government or any local authority and to recover the same as a public demand from the wakf property and to mulct the defaulting mutwalli by way of damages at the rate of 12½ per cent.

Clause 36.—This clause gives power to the Board to appoint a mutwalli in certain cases subject to any order of a competent court.

Clause 37 relates to the appointment of an official mutwalli by the Board and gives any wakif the privilege to utilize his services by appointing him, with the permission of the Commissioner, and subject to conditions as to remuneration, etc., as the mutwalli of his wakf.

Clause 38 deals with the inspection of the proceedings and other records of the Board and the Commissioner by the public.

The more important points to which special attention may be drawn are as follows :—

(*1*) the clause provides that in the case of any wakf any " person interested" is entitled to inspect and to obtain copies of such proceedings or records, with the permission of the Commissioner ;

(*2*) A stranger to the wakf shall not be entitled to inspect or obtain copies of such proceedings or other records relating to a private wakf, but in the case of other wakfs may do so with the permission of the Commissioner who will only give such permission after consulting the mutwalli concerned.

Clause 39 seeks to give the Act some elasticity by giving the Commissioner of Wakfs and the Board a general power to extend the time for the performance of any act prescribed in the Bill.

Chapter IV, clauses 40 to 43, contains another of the basic principles of the Bill, *viz.*, the enrolment of wakfs.

The most important point to which attention may be drawn is the fact that it includes all wakfs—public, private or mixed.

In this connection, the Select Committee were of opinion that as the main purpose of the Bill was to safeguard the interests of the beneficiaries and as it ensures the carrying out of the intentions and wishes of the wakif, it was, therefore, in the best interests of all wakfs, including private and mixed wakfs, that they should be included within the purview of the Bill.

The chief points to which attention may be drawn are briefly as follows :—

(*1*) application for enrolment is compulsory on the mutwalli ;

(*2*) any "person interested" may apply for enrolment ;

(*3*) the enrolment form shall contain full particulars of the wakf ;

(*4*) copies of the wakf deed shall accompany the application for enrolment, and where there is no wakf deed the application shall contain full particulars as to the origin, nature and objects of the wakf ;

(*5*) power is given to the Commissioner to take such steps as he may think necessary to verify statements accompanying the application for enrolment ; and

(*6*) applications for enrolment must be made within a specified time.

Clause 41 provides for the maintenance by the Commissioner of a register of wakfs to contain certain particulars set out in the clause.

Clause 42 contains an additional power to the Commissioner of Wakfs whereby he may, on petition by a person interested, direct a mutwalli to apply for the enrolment of a wakf or to supply any information regarding a wakf or may himself collect such information. The clause also gives the Commissioner power when necessary at any time to amend the register of wakfs maintained under clause 41.

Clause 43 supplies an important detail by providing that the Commissioner shall forthwith be notified by the succeeding mutwalli of any change in the management of a wakf due to death or retirement of the old mutwalli.

It also provides a time-limit within which changes in certain particulars relating to wakfs should be notified to the Commissioner by the mutwalli.

Chapter V, clauses 44 to 47, deals with another fundamental principle, *viz.*, the submission of accounts of wakfs, and the audit of such accounts, to the Commissioner of Wakfs.

The only points that need be specially referred to here are—

(*1*) that the accounts are to be submitted annually before the 15th day of July each year ;

(*2*) that the accounts are to be submitted ordinarily in the case of *all* wakfs ;

(*3*) that the fees for audit are to be met from the Wakfs Fund ; and

(*4*) that sums certified to be due on the report of the auditors, and confirmed by the Commissioner, can be recovered, if not paid within sixty days, as a public demand.

The Committee think it right to point out at this stage that under clause 3 of the Bill, the Board may, with the previous sanction of the Local Government, exempt any wakf from the necessity of submitting accounts under clause 44.

The Committee thought that in this case the Board should have this power.

Chapter VI, clauses 48 and 49, deals with the important question of transfer of wakf property.

The Chapter provides as follows :—

(*1*) Unless there is an express power in the wakf deed, no transfer of any immovable property by way of sale, gift, mortgage or exchange shall be valid without the permission and sanction of the Commissioner as provided in clause 49.

(*2*) If such transfer is empowered by the terms of the wakf, such transfer shall not be effected until one month's previous notice has been given to the Commissioner of Wakfs by the mutwalli.

(*3*) Similarly, no immovable property shall be leased for a term exceeding five years without similar permission and sanction.

(*4*) Leases for a term not exceeding five years, raiyati or under-raiyati leases are excluded from these restrictions.

In order to meet cases of emergency, it is provided in sub-clause (*3*) of clause 48 that if any transfer has been made by the mutwalli for the preservation of the wakf property and the Commissioner, within a period of six months, certifies that the transfer was well and truly made, such transfer shall be a valid transfer.

Chapter VII, clauses 50 to 53, deals more particularly with mutwallis.

The points which need be referred to in this connection are as follows :—

Clause 50. Power is taken in this clause, making it mandatory on the mutwalli in certain cases and in certain circumstances referred to in the clause to invest money which cannot be applied immediately or to convert property of a wasting nature into property of a permanent character.

Clause 51 entitles the mutwalli to pay from the funds of the wakf costs incurred by him for supplying particulars, documents or other information required by the Commissioner of Wakfs under the Act.

Clause 52 deals with the penalties to be incurred by the mutwalli for failure to carry out, or failure to carry out properly, his duties under the Act, or to comply with any directions of the Commissioner of Wakfs given under the provisions of the Act.

It may be noted that unless the mutwalli shows reasonable cause, he may be fined by the Commissioner for each default up to a limit of Rs. 500.

The mutwalli may be fined in a similar manner for knowingly furnishing false or misleading statements.

In all cases of fines exceeding Rs. 100, an appeal shall lie from the order of the Commissioner to the Board.

Fines imposed under this clause are recoverable as a public demand.

Clause 53 provides that where a mutwalli has incurred penalties under this clause, this will be a ground for his removal by suit.

Chapter VIII, clauses 54 to 60, contains the provisions relating to finance.

The most important provision in this chapter is clause 54 which deals with the annual levy on all wakfs and provides for an annual contribution of—

(*i*) two and a half *per centum* on the gross income in the case of all wakfs, except private wakfs, and

(*ii*) one *per centum* in the case of private wakfs.

It may be noted that the *percentage* in the Bill is the maximum that may be imposed, and that the rate of contribution requires the sanction of the Local Government.

Sub-clause (*2*) also specifically provides for reduction or remission of the contribution in certain cases.

The contribution is to be a first charge on the wakf, after the payment of Government dues.

The mutwalli is made personally responsible for the payment of these contributions.

In the matter of the levy generally, the Committee held that it is well founded that a levy on a wakf, for the purposes of its protection and proper administration, is not a violation of the *shariat*, but at the same time they wish to add that in their opinion Government are morally bound to render financial assistance, when necessary, for the proper administration of charitable endowments of a public character. They, however, realize that at present this help is for financial reasons impossible.

Clause 55 deals with the borrowing of money for the purpose of giving effect to the provisions of the Act. In the exercise of this power, the Commissioner of Wakfs must have the approval of the Board and the transaction must have the previous sanction of the Local Government.

Clause 56 establishes a "Wakfs Fund" into which all monies received by the Board or the Commissioner and all other monies realized under the Act are to be paid. The clause also deals with the investment, custody and disbursement of the monies in the Fund.

Attention is also especially drawn to sub-clause (3) of this clause which includes provision for the utilization of balances in the Fund for the preservation and protection of wakf property.

Clauses 57, 58, 59 and 60 contain provisions as to keeping of the accounts of the Wakfs Fund, their audit, the examination of the auditors' reports and recovery of any sums due.

Chapter IX, clauses 61 to 66, deals with the important question of judicial proceedings under the Act.

The clauses are self-explanatory and it needs only to be pointed out generally that the scheme of Wakf Tribunals (a Judge, sitting with two Mussalman Assessors) provided in the Chapter is in order to meet the need of a speedier and more satisfactory method of dealing with judicial proceedings relating to wakfs.

It may be noted that under clause 61 cases which involve any claim by or against a "stranger to the wakf" shall continue to be instituted in the ordinary courts.

It will also be noticed that this chapter leaves wakf properties, situated within the Original Jurisdiction of the High Court, untouched. The reason for this is the Select Committee understand that it would be *ultra vires* of the local legislature to legislate in regard to matters affecting the jurisdiction of the High Court. It is hoped that if this Bill is passed into law, the Local Government will move the Government of India to pass supplementary legislation to bring the procedure in Calcutta into line with that in the mufassal.

In this regard they consider that a suitable court in which suits and proceedings relating to wakfs, may be instituted in Calcutta, would be that of the District Judge of the 24-Parganas.

In regard to appeals, the Committee were in the same difficulty and suitable legislation dealing with this point will have to be undertaken by the Government of India.

As the Bill stands at present appeals from the Wakf Tribunals whose judgments and decrees are to be treated for all purposes as judgments or decrees passed by a District Judge, will ordinarily lie to the High Court.

In regard to the miscellaneous provisions under this chapter, *clauses 67 to 74*, the following more important points may be noted, *viz* :—

Clause 67.—An inducement is provided in this clause for the enrolment of wakfs as soon as possible by providing that no decree of rent or any other relief claimed under or on behalf of a wakf shall be executed by a court unless the wakf has been enrolled or, if it has not been enrolled, it has been expressly exempted from the provisions of the Bill.

Clause 68 provides a bar to the compromise of suits or proceedings by the mutwalli except with the sanction of the trying court.

Clause 69 provides for notice being given to the Commissioner of Wakfs in the case of all suits or proceedings in respect of any wakf property or of a mutwalli as such, or in the case of orders of sale of wakf property in order to enable the Commissioner to intervene.

It also provides that, in the absence of notice, any decree or order may be declared void by the court on application by the Commissioner in that behalf made within one month of the passing of the decree or order.

Similarly, a sale shall be void, on failure to give notice, if the Commissioner moves the court in that behalf within one month of his coming to know of the sale.

Clauses 70 and 71 give power to the Commissioner of Wakfs—

(*1*) to be made a party to a suit or proceeding regarding a wakf if he so applies,

(*2*) in certain circumstances, to institute a suit or other proceeding for the recovery of any wakf property wrongfully possessed, alienated or leased, etc., or to recover any money belonging to the wakf.

Clause 72 removes the restrictions imposed by section 14 of the Religious Endowments Act, 1863, and section 92 of the Code of Civil Procedure, 1908, by providing that the Commissioner of Wakfs may move to obtain any of the reliefs mentioned in those Acts without the sanctions referred to therein.

Clause 73 provides for notice to the Commissioner of Wakfs in connection with acquisition of wakf property which may be made under the Land Acquisition Act, 1894, and for stay of orders under that Act if the Commissioner applies to be heard.

Clause 74 provides for the costs of suits and proceedings taken by the Commissioner of Wakfs to be met from the funds of the wakf.

Chapter X, clauses 75 to 82, deals with amendments or repeal of existing Acts necessitated by the passing of the Bill.

The Bill as introduced ignored this question altogether, while the Bill as drafted by the Sir Zahid Suhrawardy Committee—*see* clause 3 of that Bill—dealt with the question by enumerating a number of Acts which the clause declared were repealed "so far as they relate to wakfs and are inconsistent with the provisions of this Act." The Select Committee felt that this was not a very satisfactory way of dealing with the question as a clause worded like that might give rise to a good deal of difficulty and may result in litigation to decide what sections of the Acts, which it is proposed to repeal are, in fact, inconsistent with the provisions of the proposed Act.

The Select Committee, therefore, decided that it would be more satisfactory to treat the provisions of the Bill as supplementary to some of the provisions of existing Acts and Regulations which apply to wakfs, and in certain cases to transfer to the Commissioner of Wakfs or the Board certain powers relating to wakfs which are at present vested in the Board of Revenue and other authorities.

In their examination of the various Acts referred to, they found that in the three cases of—

(*i*) Regulation 19 of 1810,

(*ii*) the Religious Endowments Act, 1863, and

(*iii*) the Charitable Endowments Act, 1890,

there were many useful provisions of which the Commissioner of Wakfs or the Board should be allowed to take advantage in connection with the management of wakf properties. The modifications and amendments suggested by clauses 75 to 79 in the three enactments referred to above remove any difficulties that stand in the way of giving effect to this principle.

In regard to the Charitable and Religious Trusts Act, 1920, it was found that most of the provisions of that Act have been included in the Bill. The only provision which they considered should be made to apply to the Bill was section 10 which relates to the power of the court to direct the defendant to furnish security in certain cases. This has been supplied by clause 80 of the Bill.

The Select Committee decided that the Mussalman Wakf Act, 1923, which mainly relates to the particulars which must be furnished by mutwallis, and to the audit of accounts, was unnecessary in view of the provisions of the Bill, and have, therefore, inserted clause 81 to provide for its repeal in its application to Bengal.

Chapter XI, clauses 83 and 84, deals with the making of rules and by-laws necessary under the provisions of the Bill.

In the case of by-laws, clause 84, it is provided that these may be made by the Board, with the previous sanction of the Local Government.

Chapter XII, clauses 85 to 90, deals with certain miscellaneous provisions which do not appear to call for any special remarks except that attention may be drawn to clause 85 which provides that all sums payable by a mutwalli from the funds of the wakf to the Board or Commissioner of Wakfs shall be recoverable, subject to rules to be made by the Local Government, as a public demand.

*Signed subject to his minute of dissent annexed The detailed list of changes mentioned in the minute of dissent of Khan Bahadur Maulvi Azizul Haque had not been received up to the time of printing the Report.

N.B.—Babu Jitendralal Bannerjee is now in England.

Minute of dissent by the Hon'ble Mr. Khwaja Nazimuddin, C.I.E.

While I fully approve the main object of the Bill, I realise that there is room for difference of opinion as to the details. I do not necessarily agree with all the provisions which have been included. I cannot subscribe to any provision or statement which implies an obligation on the part of Government to render financial assistance.

Minute of dissent by Mr. H. R. Wilkinson, C.I.E.

I agree generally with the above. I am not altogether convinced that the proposed machinery provides the most practicable means of securing the object in view.

Minute of dissent by Dr. Naresh Chandra Sen Gupta, M.L.C.

I wish to make it clear in the first place, that in assenting to the Bill as settled in the Select Committee, I am not to be understood to have expressed any opinion on the policy of the Bill or on the question as to how far it affects the Shariat. On these matters, I think the decisive opinion ought to rest with the Mussalman members of the Council. My own contribution has been more or less that of an expert adviser on the aspects of Legislation unconnected with the policy.

At the same time, I wish to express my personal opinion with regard to the objections raised in some quarters about the provisions of this Bill being against the Shariat. I have carefully studied the opinions of those who have said that they are. And my decided opinion is that the authorities cited by the opponents do not establish the point.

The only point of these objections now remaining in the Bill is the one relating to the levy for the purposes of the expenses of the Board. The texts cited do not establish that the State cannot levy taxes for general purposes upon the wakf property, far less that it cannot levy such tax for the protection and proper management of the wakfs themselves in accordance with the wishes of the wakifs.

In the second place, I think it necessary to point out that, while the question of conformity or otherwise with the Shariat will certainly greatly influence the judgment of Mussalman members of the Council in deciding on the Bill, the mere fact that a measure is against any particular provision of the Shariat is no absolute bar against legislation. The legislature has undoubted power to legislate in the interests of general welfare notwithstanding the Shariat. Nor can it be said that in doing so the legislature would violate any established principles. For there has never been any law or policy that the whole of the Shariat shall at all times be inviolate any more than that the whole of the Shastric law shall be inviolate in the case of Hindus. What has been guaranteed to the people by legislation heretofore are only certain specified portions of Hindu and Muhammadan law. The vague and general terms of the Queen's Proclamation cannot be tortured into yielding the meaning that every letter of the Shastras or the Shariat, however unreasonable in the circumstances, should be maintained intact.

With regard to clause 3 of the Bill, I am decidedly of opinion that this will have a most pernicious effect. To pass a solemn act of the legislature and to leave it to the executive authorities to altogether nullify its operation by exemptions is wholly unjustifiable. If it is felt that there are certain provisions of the Bill which should be inapplicable in certain circumstances, the exemptions should be specified in the Act itself; or if power is given to the executive authority the conditions under which and the limits within which such power is to be exercised by them should be definitely stated. As the draft stands, it is quite conceivable that mutwallis who are in a position of power and influence may easily gain unjustified exemptions while others more deserving of them may be denied the advantage. Considering that the Members and Ministers of the Local Government cannot always and under all circumstances be relied upon to be above influences, I think the requirement of the sanction of the Local Government is no safeguard. It is quite conceivable that if we have the misfortune to have a none too scrupulous Commissioner, this power of exemption may be easily manipulated by him as a weapon for rewarding or harassing individual mutwallis for his private gratification.

With regard to clause 52, I am strongly opposed to leaving the power to impose fines in the Commissioner who, as the Bill now stands is not a judicial officer. In the somewhat analogous case of Companies, the fines provided under the Indian Companies Act cannot be imposed by the Registrar, but by a Magistrate. Fines in other cases, *e.g.*, under the Railways Act or rules thereunder are imposed by Magistrates. There seems to be no sound reason why, in this case where there may easily arise questions of fact and law as to whether liability to fine has been incurred, a judicial finding by a Magistrate on such questions should be shut out.

I am also of opinion that in some of the cases specified, the provision of a daily fine on default would be a more useful means of securing compliance with the law.

With regard to the judicial powers of the Board, I agree with the Committee in deleting the provisions of the Suhrawardy Committee's Bill. There are considerable difficulties in the practical application of such provisions, with wakfs spread over a wide area, much of which is inaccessible. But I certainly look forward to a time when, with experience gained in the working of the Board, it will be possible to vest the adjudication of charity cases in a Board, somewhat differently constituted. It is worthy of note that in England the Charity Commissioners did not have any judicial powers at the start. It is only by later legislation that they were vested with such powers.

I have my doubts about the special judicial procedure provided in the Bill. I do not know whether the proposals here embodied will expedite or delay the adjudication of wakf disputes. Besides the question of speeding up the administration of justice is one which should not be attempted in this piecemeal fashion, but should be considered as a whole problem by itself. Otherwise, speeding up in particular cases may easily be detrimental to the interests of the general body of litigants.

Minute of dissent by Khan Bahadur Maulvi Azizul Haque, M.L.C.

I am in full agreement with the provisions of the Bill, but there are some minor details which probably would require verbal and other changes. I propose to submit a list of such changes in a day.

Joint minute of dissent by Maulvi Muhammad Saadatullah, M.L.C., Haji Badi Ahmed Chowdhury, M.L.C., and Mr. A. K. Fazl-ul-Huq, M.L.C.

We are all agreed that all Wakfs Indallah for public, religious and charitable purposes should be properly managed, their proceeds applied strictly according to the wishes of the wakif, and no portion of their income misappropriated. But while framing legislative proposals, objection must be taken to anything which is contrary to the Shariat or Moslem Personal Law. On this ground the following minute of dissent is based :—

Clause 2.—I am clearly of opinion that all private wakfs, *i.e.*, wakf-al-al-aulad, which are family settlements, should be expressly excluded from the scope of the present measure. The Mussalman law like the English law draws a wide distinction between public and private trusts and this distinction has been recognised by various legislative enactments, *e.g.*, section 21 of Act XX of 1863 (Religious Endowments Act), section 2(*e*) of Act XLII of 1923 (Mussalman Wakf Act), etc. I am further fortified in my view by the judgment of the Judicial Committee delivered by the Right Hon'ble Ameer Ali in Ismail Ariff's case (43 IA). To ignore such a well-recognised distinction between public and private trusts would, in my opinion, lead to confusion and complication. I would, however, retain the provision regarding the enrolment only of all private wakfs as laid down in clause 40.

The following clause may, therefore, be inserted as clause 2 :—

> " 2. This Act shall apply to wakfs of a purely public, religious and charitable nature created before or after the commencement of this Act, and in respect of wakf-al-al-aulad, only as regards its enrolment."

Clause 4.—Sub-clause (7) of clause 4 is most objectionable, as the definition embodied therein is wholly against the Shariat, as also against Act VI of 1913, which clearly defines the nature of wakfs-al-al-aulad. A Moslem has every right to create a wakf-al-al-aulad, " for the maintenance and support, *wholly or partially*, of his family, children or descendants, and where the person creating the wakf is a Hanafi Mussalman, also for his own maintenance and support," etc. This is the definition of wakf-al-al-aulad according to Act VI of 1913, and this definition should not be deviated from. Sub-clause (7) of clause 4 should, therefore, be revised in the following manner :-

> " 7. Wakf-al-al-aulad means a wakf created for the maintenance and support, wholly or partially, of the wakif's family, children or descendants, and in the case of a Hanafi Mussalman also for his own maintenance and support."

Clause 25 : Proviso. The word " obsolete " should be deleted. It is a vague term, and its meaning depends upon individual opinion and predilection. What may be considered " obsolete " by A may not be considered so by B. Further, the words " in the interest of the beneficiaries " should also be omitted, because the wishes of the wakif should always have precedence, and if one object of the wakf becomes inoperative, another object similar to it will have to be found.

Clause 37. - This clause should be omitted. Every wakif will choose his own mutwalli, and it is extremely unlikely that the services of the proposed " *official mutwalli* " would ever be requisitioned. Moreover, all appointments of mutwallis must be governed by the facts of each particular wakf.

Clause 40. -At the end of sub-clause (3) of clause 40, the following words should be added :—

" With respect to all wakfs of public, religious or charitable purposes ";

and a sub-clause (*g*) to clause 40 should be added to the following effect :

(*g*) " In the case of wakf-al-al-aulad it will be sufficient for the mutwalli merely to supply a true copy of the wakf deed, and in case where the wakf-al-al-aulad is a oral wakf, the purport of the wakf attested by two respectable witnesses."

Clause 54. --Since the circulation of the Draft Bill opinions have been received from various quarters, and we have also had the advantage of discussing the question of the proposed levy with various individuals well-versed in Muslim Jurisprudence, and we find that there is almost an unanimity of opinion among Moslem divines and Ulema that the imposition of special tax on the gross income of wakfs will transgress the elementary principle of the Shariat, *viz.*, that one cannot utilise any portion of the wakf funds for any purpose not specified by the founder. Moreover, on general principles, we do not think it right to subject religious and charitable institutions like wakfs to special taxation. Such a levy will contrast most unfavourably with the provisions of various statutes which have specifically exempted such trusts from taxation provided thereby ; *e.g.*, Indian Income-Tax Act, 1932, section 3(3) (*i*) (*ii*) ; Bengal Municipal Act, 1932, section 124 (2), etc The principle of immunity of trust from taxation has been recognised in one form or other by the Legislature in every country, and the proposed levy will, therefore, be fundamentally wrong. In view of the opinion expressed by competent Muslim divines and strong feeling in the community against it, the proposed levy seems to be a most objectional feature of the Bill, to which it is impossible to subscribe Clause 54 should, therefore, be omitted altogether.

If the Ecclesiastical Department or the Haj Department can be maintained out of public revenues, and if public revenues can be spent on the arrangements for looking after pilgrims on the occasion of big *melas* and fairs, there is no reason why public revenues should not be used for the protection of public wakfs.

Clause 81.—There is no need to repeal the Mussalman Wakf Act, 1923, so this clause should be omitted.

Clause 88. -The words " with the permission.....may be " should be omitted.

For the word " Mussalman " wherever it occurs the word " Moslem or Muslim " should be substituted.

I reserve the right to object to other clauses if necessary.

Minute of dissent by Maulvi Muhammad Hossain, M.L.C.

Clause 54.—In the matter of levy I think the Government are morally bound to render financial assistance, when necessary, for the proper administration of the charitable endowments, but at present if the Government are not in a position to meet all the expenses necessary for the enforcement of this Act, Government should pay annually at least half of the cost, the remaining half should be raised by means of levy as proposed in the Bill.

Clause 62.—The clause as it stands would not suffice to attain the desired effect, *viz.*, speedy disposal It leaves a wide power with the District Judge for the formation of the wakf tribunal. Ordinarily, no suit or proceeding becomes ready unless and until the presiding officer compels the parties to come ready, opposite parties generally try to defer the matter by seeking time on some ground or other. So to have the matter speedily disposed of, a time-limit should be provided for just like the provisions in the Small Cause Court Act for speedy disposal of Small Cause Court suits in the Civil Procedure Code for the miscellaneous cases and proceedings.

Clause 69.—In my opinion no notice on the Commissioner of Wakfs is necessary in suits or proceedings in respect of wakf properties brought by the mutwallis, particularly rent suits and rent executions, because it involves unnecessary expenditure and delay only without any profit. Suits by the mutwallis must needs be in the interest of the wakf estate.

I sign the Report of the Select Committee with the above remarks and reserve the right of moving amendments.

Minute of dissent by Rai Bahadur Kamini Kumar Das, M.L.C.

Her Gracious Majesty Queen Victoria the Good in her illustrious proclamation gave the peoples of India her solemn pledge that the personal laws of different communities residing in India would not be in any way interfered with We have always stored this as our most valuable and sacred document, and we have always been very scrupulously guarding the same, and this noble proclamation has been rightly called the Great Charter of Indian Liberty.

On the present occasion also, while considering the most important portion of the personal law of the Muhammadans, we cannot ignore this nor can allow any one to do so.

It is the wish of all that all wakfs for public, religious and charitable purposes should be properly managed and carefully guarded. But while framing legislative proposals, we should be particularly careful to see that nothing is incorporated into law which is contrary to the Shariat or personal law of the Muhammadans.

With this view I submit the following minute of dissent and should first deal with the levy, as it is most contentious.

In the opinion of many persons who are well versed in Muhammadan law Moslem divines and Ulemas--the imposition of a special tax on the gross income of wakfs will transgress the elementary principle of the Shariat, as no one can divert any portion of the wakf funds for any purpose not specified by the founder.

Evidently, it is for this reason that various statutes have specifically exempted, such trusts from taxation, *e.g.*, Indian Income-tax Act, 1922, Bengal Municipal Act, 1932, etc. I am, therefore, of opinion that the proposed levy will be wrong both fundamentally on principle and also on the ground of general policy, as it will be against the Queen's Proclamation to interfere with the Shariat or personal law of the Muhammadans.

In my opinion all private wakfs, whatever may be their income, should not come within the scope of the present Act. This wakf-al-al-aulad may only be enrolled, but in all other respects it will be independent of the present Act and will not be governed by its provisions, but by the provisions in the wakf-nama. In application for enrolment of this wakf-al-al-aulad, it will be sufficient for the mutwalli to supply a true copy of the wakf-nama and where it is an oral one, the purport of the wakf attested by two witnesses.

The appointment of an official mutwalli should be objected to. Every wakif will choose its own mutwalli and where there is none, it will be done by the Kazi or the Court as is generally done at present.

As to judicial and legal proceedings, in my opinion the present arrangement should not be disturbed. All the disputes about wakf should be decided and disposed of by ordinary Courts of Civil Jurisdiction as at present, and to expedite disposal, there may be some special Judges whose duties would be to dispose of wakf cases first of all and give them precedence over all other cases.

Joint minute of dissent by Khan Bahadur Muhammad Abdul Momin, M.L.C., Mr. A. F. Rahman, M.L.C., Maulvi Tamizuddin Khan, M.L.C., and Maulvi Abul Kasem, M.L.C.

In clause 4(7) we are of opinion that the phrase " private wakf " should be deleted and " wakf-al-al-aulad " substituted and it should be defined as follows :—

> " Wakf-al-al-aulad means a wakf under which the benefit is wholly or mainly claimable by the wakif for himself or for any of his family or descendants
>
> *Explanation.*—Mainly means 75 *per cent.* or more of the benefit "

We are of opinion that there should be no levy on wakf estates.

We feel that the supervision and audit of wakf estates should be a public charge. We, therefore, suggest that clause 54 be deleted.

We make this suggestion as a matter of principle. We are further of opinion that the cost of administering the proposed Act will not be a severe strain on the finances of the province If, however, it is found that funds are not under any circumstances available at present, we suggest that some temporary provision be made

STATEMENT OF OBJECTS AND REASONS.

It is admitted on all hands and also widely known that the wakf properties in Bengal form the most important source of wealth created for manifold charities and for the welfare of the Muslim community.

Muslim zamindars have been ruined, Badshahi grants have been resumed and Muslim families have been broken up under the operation of the Law of Inheritance. The result has been the widespread and appalling poverty that stands in the way of progress of the Muslim community of Bengal to-day. The Government aid is too inadequate to meet the scope of its demand for education, sanitation and culture. Besides, the community is too poor to bear any further burden of taxation. It is, therefore, high time that ways and means should be explored to cope with the situation.

The number of Muslim moneyed men that can come forward with large donations to meet the crying need is also very small.

The community is condemned for this deplorable poverty, whenever its rights and privileges are pressed in the University, in the Councils and in other public institutions and the donations of the Hindu moneyed men are compared to the ridiculously small contributions coming from the Muslim community.

Nevertheless there are wakf properties still in existence in Bengal, which if properly administered and the incomes thereof spent on legitimate purposes for which they had been created, the present disgraceful position of the community will be greatly relieved and its honour and dignity properly vindicated. If the wakf properties are properly administered for the real beneficiaries only for which they were dedicated initiative, industry and enterprise will develop and the community's wealth will be increased. This Bill contemplates to regulate and channel the use of wakf incomes into legitimate purposes and protect the interests of the beneficiaries.

Muslim Law vests the wakf property in God. The Crown exercises the rights as representative of God. It is, therefore, the duty of the Crown to preserve, protect, maintain, administer and improve the wakf properties.

But unfortunately in Bengal the Crown has not exercised its right of direct control to wakfs, the Muslim Law has conferred on it. Consequently the mutwallis have had their day. They have made much of the wakf properties. Most of them enjoy the incomes for themselves and often treat them as their own private properties. The result has been many wakf properties have passed into the hands of third persons and to the members of other communities.

This Bill contemplates to recover the wakf properties and set up a permanent and responsible machinery solely entrusted to develop and regulate the incomes and expenditure of the wakfs.

As everybody's business is nobody's business, members of the Muslim community seldom come forward to call the mutwallis into account. And there are other obvious reasons as well. The remedy by way of mutwalli suits for removal or accounting is protracted and most expensive. The present economic position of the community allows very few persons to risk the expenses and trouble involved in such suits. This Bill proposes to carry out the scheme of administration and recovery of wakfs through the wakf authorities which will take the place of the public with regard to the duty of supervision and control of wakfs and the mutwallis thereof.

The Act LXII of 1923 (the Mussalman Wakf Act) contemplates a remedy by way of calling the mutwallis into account to the District Judge. But the remedy is inadequate and the Act does not provide for the recovery and administration of wakfs. Besides, since 1923, the Act has not been put into operation in Bengal excepting that some attempts are being made by the District Judge of Rangpur. The District Judges have not yet been provided with the machinery to put the Act into operation. This Bill contemplates to cover much wider grounds than the Act XLII of 1923. It proposes to make the remedy real and effective by creating a new department under permanent authorities, to assert the rights of the Crown to the wakf properties and protect, maintain and improve them.

The Board of Wakfs will be solely entrusted to control and supervise the administration of wakfs. The Muslim public will not have to worry about litigation in civil courts as they have hitherto done, regarding wakf properties and the mutwallis.

The constitution of the Board has been framed so as to secure representation of various and wider interests.

Provisions have been made to make the department created under this Act self-supporting and create a large Consolidated Fund to meet the expenses for education of the Muslim community.

Care has been taken to see that the Muslim public should be able to take greater interest in wakf properties more frequently and with the least trouble and expenses.

Provisions have been made for appeals, reviews and references so that nobody may be prejudiced.

This Bill proposes to establish a machinery which will be self-acting and at the same time in no way inferior to the authorities, who have hitherto decided and dealt with wakf cases.

The Bill only seeks to secure a proper administration of wakfs and to recover properties which were dedicated in wakf in the name of God.

It is to be noted, however, that in setting up the machinery contemplated under this Act, Government will have to incur certain initial expenditure recoverable later on from the Fund to be created hereunder.

APPENDIX II.

Report of the Sir Zahid Suhrawardy Committee on the Bengal Wakfs Bill, 1932, by Maulvi Abdul Ghani Chowdhury, M.L.C., with the Bill, as drafted by them, annexed.

We have been asked to report on the Bengal Wakfs Bill, 1932, introduced in the Bengal Legislative Council by Maulvi Abdul Ghani Chowdhury, M.L.C., and to give it a practical and workable shape.

We have considered carefully the Bill referred to us. In our opinion a detailed criticism of the Bill, as introduced, will only be destructive and will necessitate the framing of a new Bill. We have, therefore, considered it more convenient to draft a Bill, annexed hereto, embodying our criticisms, suggestions and recommendations.

The main points upon which we have differed from the Bill, as introduced, are :—

(1) The first few chapters of the Bill, as introduced, deal with the powers, duties and liabilities of the mutwallis. We are of opinion that they should not be fixed by statute. The Muhammadan Law is full and explicit on these points and it is neither necessary nor desirable to legislate in matters of personal law.

(2) We agree that there should be a Board to control and supervise wakfs but we do not approve of the mode of appointment of the Commissioners as suggested in the member's Bill. We have proposed that the Commissioners should be public officers and as such their appointments should be in the hands of the Government.

The other points on which we have differed from the proposed Bill will appear from the provisions of the Bill which we herewith submit.

The main features of the Draft Bill which we are herewith submitting are the following :—

(1) The Bill drafted by us will apply to all wakfs of which the endowments are within the Presidency of Bengal. We are aware that there are wakfs of which the endowments are partly within the Province and partly outside it but they were created within the Province by a resident of it. Further, it will be easy to evade the Act by including in the wakf a property, however insignificant, situate outside the Province. We should like to include such wakfs also but we doubt if it can be done by Provincial legislation without the help of the Imperial legislature.

(2) The most intricate question with which we have to deal is the applicability of the law to wakfs generally known as wakfs *al-al-aulad* as defined by section 3 of the Mussalman Wakf Validating Act VI of 1913. They are practically family settlements but as they are valid wakfs and may at some time however distant become wakfs for the benefit of the public we have suggested that some of the provisions of the Bill should apply to them and some other provisions which are intended mainly for the control of public institutions should not for the present apply. For instance, we propose that such wakfs should be registered in the office of the Board of Wakfs but may not be required to render periodical accounts as in other cases. As the Board will have to exercise some control over such wakfs as regards alienations and settlements of disputes among beneficiaries, such wakfs should contribute to the general revenue of the Board though such contribution may, at the discretion of the Board, be different from the levy on other wakfs. Our main idea is that there will not be much interference with the internal management of such wakfs but there will be a salutary control over the mutwalli as regards transfer and management. In the case of mixed wakfs we have left it to the discretion of the Board to apply such provisions of the Act as it may think fit according as a substantial portion is dedicated for public charity or for the benefit of the family.

(3) We have added a definition of "movable property" to include Government securities and other paper securities and shares in firms and companies which we think are within the spirit of the definition of movable property under the Muhammadan Law. In this matter we have followed the view of some High Courts other than the Calcutta High Court and the trend of the opinion of the Privy Council expressed in relation to gifts in a modern progressive society.

(4) As regards the constitution of the Board, we propose that its members should be public officers and hold the rank and status of judicial officers in the Provincial Service, as they are to be vested with considerable judicial powers. The right of appointing them, therefore, should accordingly vest in the Local Government for such period and on such terms as they may determine.

(5) We propose that all wakfs should be registered in the office of the Board. We have used the term "enrolment" instead of "registration" in order to distinguish it from registration under the Registration Act. The particulars to be supplied along with an application for enrolment we have borrowed bodily from the Mussalman Wakf Act, XLII of 1923.

(6) As regards the provision for submission of accounts by the mutwalli we have copied it from the Charitable and Religious Trusts Act, XIV of 1920.

(7) We have made a departure from the Bill introduced in the Council in vesting the Board exclusively with full judicial powers in respect of all wakfs and taking away such powers from the civil courts. We have also vested in the Board the powers of the kazi under the Muslim Law in respect of wakfs and have taken away such powers from the ordinary civil courts as no longer necessary. The main reason why the provisions of the Acts of 1863, 1920 and 1923 and of section 92 of the Code of Civil Procedure are not generally availed of is the forbidding expensiveness and delay of litigation of which the public does not venture to take the risk and which gives a sense of security to dishonest mutwallis. We propose to make litigations relating to wakfs cheap and expeditious. In order to save honest mutwallis from vexation and harassment we have given the Board discretion to refuse to take action where it considers it inadvisable in the interest of the wakf. We feel that this special statute should not impinge on the rights under the general law of persons unconnected with the wakf and claiming adversely to it. We have proposed that it will not apply to them.

(8) We have made an important suggestion that in all litigations in Courts and all proceedings before public authorities relating to wakf endowments, an opportunity should be given to the Board to intervene in order to enable it to protect them. We consider such a provision necessary for the protection of endowments from unlawful acts and neglect of mutwallis.

(9) We have suggested the appointment of an official mutwalli. Private persons may want his services to act as mutwalli of their wakfs for better management and preservation. He will also serve the useful purpose of acting as mutwalli by the direction of the Board and under its supervision, of wakfs of which there may be no mutwalli or suitable mutwalli. He will occupy a position in relation to wakfs similar to that of the Official Trustee.

(10) In general, we have endeavoured to supply an agency to enforce the provisions of the Acts of 1920 and 1923 where no action is taken by any one for the preservation of wakfs.

(11) We have endorsed the suggestion in the member's Bill that, if possible, the surplus income derived from wakfs should be utilised for the benefit of the Muslim public.

(12) As to finance, it is desirable that the department of wakfs which will thus be created should be self-supporting and not be a charge on the public revenue. As the aim of the proposed legislation is to protect and preserve the wakfs in the Presidency, many of which undoubtedly are being wasted and mismanaged, we have levied a sort of a tax on such wakfs as will come under the control of the Board to form a fund out of which the expenses of the department will be met. As we have no means to judge what amount will be

necessary for running the department or what amount may be realised from contributions by the wakfs we have tentatively put the maximum contribution at 5 per cent. of the gross annual income. Experience will show what amount of contribution from the wakfs will be adequate to meet the expenses of the Board, and, therefore, we have made the percentage of contribution variable at the suggestions of the Board and the sanction of the Government. Probably in the case of all wakfs a uniform rate may not be appropriate which may differ according to circumstances peculiar to particular wakfs. We see no ground of objection to such contribution which will be considered part of the collection and management charges. We have followed in this respect the Madras Act II of 1927 though the percentage fixed there is much lower in view of the very large number of religious institutions in that Presidency.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 1582L.C. -21st August, 1933. In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 14th August, 1933, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto

THE BENGAL EMBANKMENT (AMENDMENT) BILL, 1933.

A

BILL

to amend the Bengal Embankment Act (Bengal Act II of 1882).

WHEREAS it is expedient to amend the Bengal Embankment Act, it is hereby enacted as follows :—

To section 76 of the Bengal Embankment Act, the following explanation will be added, *viz.*—

"*Explanation.*—The restoration of an embankment to its dimensions before it was eroded or damaged by flood or otherwise is not 'addition to an existing embankment' within the meaning of this section."

STATEMENT OF OBJECTS AND REASONS.

The words "existing embankment" in section 76 of the Bengal Embankment Act have in several cases been judicially interpreted to mean "an embankment existing at the time the addition is made." The result is that an embankment which is damaged or eroded by floods or other causes cannot be repaired till the permission of the authorities is obtained, thus entailing a delay which in particular instances may be the cause of irreparable damage. This difficulty was pointed out by the High Court (Panckridge J.) in the case of Hatu Naik reported in I. L. R. 60 Cal. 131, the latest case on the subject. The present amendment of the law seeks to prevent this anomaly.

N. K. BASU,
Member-in-charge.

Some of the special features of the fund are (1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. PART IV

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 2791L.C.—25th August, 1933.—The following report of the Select Committee on the Calcutta Municipal (Amendment) Bill, 1933, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Calcutta Municipal (Amendment) Bill, 1933.

We, the members of the Select Committee of the Bengal Legislative Council to which the Calcutta Municipal (Amendment) Bill, 1933, was referred by a motion carried in the Bengal Legislative Council on the 9th August, 1933, have the honour to submit this our report with the Bill as amended by us annexed. All matter omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter has been underlined.

1. The Bill was published in English in the *Calcutta Gazette* (Extraordinary), of the 30th March, 1933

2. We do not consider that the Bill has been so altered as to require republication.

3. The Committee met for the first time on the 10th August, 1933, and concluded its sittings on the 16th idem

4. An invitation was extended to the Corporation to send three representatives if they desired to make any representations as to the workability of any of the detailed provisions of the Bill. The Corporation wrote declining the invitation. The correspondence relating to this matter will be found in Paper No. 1 to the Bill.

5. The changes made in the Bill are as detailed below :—

Clause 2.—We have made a consequential amendment in this clause.

Clause 4—proposed section 54A.—The object of the changes made in this clause is to exclude persons who are sentenced to small terms of rigorous imprisonment.

In this connection, the Committee decided that the period of 3 months should be the same both in the case of simple and rigorous imprisonment.

We have added a proviso that sub-section (*1*) shall not be applicable to a sentence of imprisonment after the expiry of five years from the release of the person sentenced, except in the case of an offence against the State.

The amendment made in proposed sub-section 54A(*2*) is consequential.

Clause 4—proposed section 54B.—We do not think there is any necessity to give retrospective effect to the Act in so far as it relates to appointments made before the commencement of the Act and have omitted sub-section (*2*) of proposed section 54B accordingly.

Sub-section (1) *of proposed section 54B.*—We have not proposed an alteration in this sub-section because we consider that the case of persons already in the employment of the Corporation is different from that of persons who may apply for such employment.

In sub-section (*5*) of proposed section 54B, we have extended the time within which an application may be submitted by a convicted person from six weeks to two months and have reduced the period within which final orders of the Local Government should be passed to three months.

Section 54BB has been inserted with the special object of removing practical difficulties which might arise in connection with the recruitment of menial staff or with minor offences committed by the menial staff.

The rest of the changes in this proposed section are consequential.

Clause 6.—We have amended this clause on the same lines as proposed section 54A(*1*), but mainly with a view to include within its purview not only institutions promoting primary education among boys or girls, but all institutions, for the reasons that otherwise it would be easy to evade the object of the Bill.

The word "knowingly" has been inserted to prevent the clause having the practical effect of delaying Corporation business.

Clause 9.—The amendment made in proposed section 121A is to make it applicable to sub-section (*1*) of section 121 also.

Clause 11.—We have made a slight emendation in the proviso to proposed new section 123 to provide by rule for the manner in which the Local Government shall be informed of a difference of opinion between the Corporation and the auditors or in the case of neglect of the Corporation to remedy any defect or irregularity pointed out by the auditors.

The change made in proposed section 123A is of a formal character.

We have amended sub-section (*2*) of proposed section 123B, and omitted sub-section (*3*), in order to remove the retrospective effect of the proposed section.

We have provided in sub-section (*5*) of proposed section 123B, a limit to the time within which the Local Government may set aside or modify any disallowance, surcharge or charge because we consider that there should be some finality in such matters and that it should not be open to Government to revise orders of surcharge years after effect has been given to them We have made it clear that this limit does not apply to orders passed by the Local Government under proposed section 123C.

In proposed section 123D(*1*) we have extended the period of payment from one month to three months and provided specifically for the case where the certificate is modified within the period of three months.

In proposed section 123F we have extended the period of payment from one month to three months with similar modifications as in section 123D(*1*).

The changes made in proposed section 123G(*e*) and (*f*) are consequential.

We have inserted a new clause, making the auditors public servants within the meaning of the Indian Penal Code.

We recommend that the Bill, as amended by us, be passed.

NOTE.—The signatures of Mr. A. Raheem, C. I. E., and Khan Bahadur M. Asizul Huque had not been received up to the time of sending this to Press for publication.

Minute of dissent by Mr. C. C. Miller, M.L.C.

In clause 11, under proposed section 123B(*1*), the auditors are invested with the responsibility of disallowance and surcharge, but under proposed sub-section (*5*), the Local Government have the power to set aside or modify any disallowance, surcharge, etc., made by the auditors.

I consider that the responsibility of surcharge should rest on the Local Government, after receiving the report and advice of the auditors, and in my opinion proposed section 123B(*1*) should read as follows :—

" (*1*) The auditors, after giving the person concerned an opportunity to submit an explanation and after considering any such explanation, shall report to the Local Government who shall be empowered to disallow every item of account contrary to law, and surcharge the same on the person making or authorising the making of the illegal payment, and shall charge against any person accounting the amount of any deficiency or loss incurred by the negligence or misconduct of that person, or of any sum which ought to have been but is not brought into account by that person, and shall in every such case certify the amount due from such person."

And that proposed section 123B(*5*) should be deleted.

It is claimed that the principle of making the auditor the surcharging authority follows the precedent of England and Wales and also of Madras, where the system is satisfactory, and it is also claimed that it is advantageous to have as a surcharging authority a department unconnected with the Local Government. In application, however, in Bengal these advantages are in my opinion illusory. The auditors will not have the status of District Audit Departments in England nor indeed of a firm of Chartered Accountants, and to delegate such power and responsibility would, I think, be a grave mistake. Furthermore, the latest established system, namely, that of Scotland, does not follow the English or the Madras system, but makes the surcharging authority the Secretary of State for Scotland.

This Bill has been introduced to deal with contraventions of the Calcutta Municipal Act, and if it is admitted that the Bill is necessary, it must also be admitted that the Local Government must be in a position to enforce it. The Audit Department is not under the Government of Bengal, whose duty it is to ensure that its Acts are enforced.

Under proposed section 123B(*5*), the Local Government has power to set aside, modify or disallow any surcharge made by the auditors. This, in itself, entails the control by the Local Government of a very considerable portion of the auditors' powers, and it is also evident that the Local Government must scrutinise the auditors' reports carefully in order to determine whether or not to exercise their prerogative. This being the case, it seems to me that it would be far more satisfactory that Government should proceed one step further and themselves assume the power of surcharge and disallowance on the advice and report of the auditors.

Minute of dissent by Khan Bahadur Muhammad Abdul Momin, M.L.C.

Clause 11, proposed section 123B. -I am of opinion that the order of disallowance and surcharge should emanate from the Local Government direct and not automatically from the auditors—the latter will look at things purely in its technical aspect. Government, on the other hand, will consider various other things and take a broader view. I propose that the following words be substituted for the word "auditors" in line 1 of the section, namely—" the Local Government on the receipt of the report from the auditors."

I also think that there should be no appeal to the Local Government, and suggest that the last 5 lines of proposed section 123C be deleted.

Minute of dissent by Mr. Narendra Kumar Basu, M.L.C.

I dissent from most of the provisions of the Bill as it has emerged from the Select Committee. I may say at once that with regard to the second part of the Bill I would have liked preventive rather than punitive provisions.

I shall indicate in this note only the principal points and reserve the reasons for the Council where I claim the privilege of moving detailed amendments.

Clause 4, proposed section 54A (1).—I do not accept the view that any one who has not been convicted of an offence involving violence should be disqualified.

The Select Committee has gone even further than the Bill as drafted in the case of minor offences, and I entirely disagree.

In consonance with the recommendation to delete proposed section 54B (*2*), the words "after the commencement of this Act" should be inserted in line 4 of this proposed sub-section after the word "convicted."

Proviso.—If there is to be an amnesty it ought to be operative after one year at the most

Proposed sub-section (5).—I do not think the Legislature should put their power in the hands of the Executive

Proposed section 54B (1).—I would make a limitation similar to that suggested under proposed section 54A (*1*).

Proposed sub-section (5).—Instead of two months after the date of conviction, I would allow three months from the expiry of the sentence.

Proposed section 54C. I would limit the expression "offence against the State" to serious offences involving violence or at most to such as are indicated in the different Acts legalising the Ordinances

Clause 6, proposed section 88A.—This goes much beyond the provisions of proposed section 91A in the Bill as referred to the Select Committee and seems to be *ultra vires* of the Committee. Anyway, I dissent from it.

Clause 11, proposed section 123B (1). –The words "negligence or" ought to be deleted.

Proposed sub-section (2).—Provision should be made to safeguard a person who votes for the motion or resolution in good faith.

Proposed section 123D.—The period of "three months" seems to be inconsistent with the provisions of proposed section 123B (*5*)

Proposed section 123E (1).—This directly contradicts proposed section 123C. In any case, there seems to be no reason why if the costs of the erring auditors are to be paid by the Corporation, the costs of its own Alderman or Councillor would not be so paid.

If the clause is to be retained, the words "against the auditors" and "by the auditors" should be deleted.

Proposed section 123F.—Here again the time limited seems hardly to be in consonance with the provisions of proposed section 123B (*5*).

Minute of dissent by Babu Jatindra Nath Basu, M.L.C.

In clause 4, in proposed section 54A (*1*), the offences which lead to the conviction and sentence should be specified. Offences of a light character should be excluded. Bad characters or persons who have been convicted of violence or of political activities that might lead to violence should be the persons that should be dealt with under this clause. It should not be forgotten that the situation that is sought to be dealt with is a temporary phase

In proposed section 54C the "offences against the State" should be specified by reference to the provisions of the Acts contemplated.

Before the surcharge is made, it should be sanctioned by the Accountant-General, Bengal, if he is not the auditor making the surcharge, so that the matter may be considered by the highest auditing authority in the province before the charge is actually made.

Minute of dissent of Mr. A. K. Fazl-ul Huq, M.L.C.

I am of opinion that clause 4 should be omitted altogether.

NOTIFICATION

No. 2792L C. — 25th August, 1933.—The following report of the Select Committee on the Bengal Places of Public Amusement Bill, 1933, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Places of Public Amusement Bill, 1933.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Places of Public Amusement Bill, 1933, was referred by a motion carried in the Bengal Legislative Council on the 10th August, 1933, have the honour to submit this our report with the Bill as amended by us annexed. All matter omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter inserted has been underlined.

1. The Bill was published in English in the *Calcutta Gazette* on the 27th July, 1933.

2. The Committee met on the 14th August, 1933, and concluded its sitting on that day.

3. We do not consider that the Bill has been so altered as to require republication.

4. The changes made in the Bill are detailed below :—

Clause 2(3).—We have amended the definition of "place of public amusement" to include a vessel.

Clause 5A.—The insertion of this new clause is a drafting change which has been rendered advisable by the insertion of new clause 5B. It does not involve any change of substance.

Clause 5B.—We have inserted this clause as we think that the Commissioner of Police and the District Magistrate should have power to suspend the playing of objectionable games pending a reference to the Local Government. We have added a consequential provision as sub-clause (*iv*) in clause 10 (*g*) (*c*).

Clause 6.—Apart from the slight drafting changes in this clause which have been made in order to make the intention more clear, we think it better that the period to be allowed for the closing of a place notified under the Act should be left entirely to the discretion of the Commissioner of Police or the District Magistrate, as the case may be, and have amended the clause accordingly.

We have also added a provision to this clause to allow revision of the orders passed under clause 6 and made a necessary consequential addition in clause 10.

Clause 7.—We have made a few drafting alterations in this clause to make the intention more clear.

Clause 8.—We considered whether provision should be made for imprisonment in default of payment of the fine, but we are advised that this is unnecessary in view of section 26 of the Bengal General Clauses Act, 1899.

Clause 10.—We have modified clause (*c*) (*i*) to secure not only the orderly behaviour of persons visiting notified places of public amusement but also the conduct of the place itself in a decent and orderly manner.

We have made a slight change in clause (*c*) (*iii*) to make the intention more clear.

The other changes in this clause are consequential.

We recommend that the Bill, as amended by us, be passed.

No. 2801L.C.—26th August, 1933.—In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill, which was introduced in the Bengal Legislative Council on the 14th August, 1933, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL STATE LOTTERIES BILL, 1933.

A

BILL

to provide for lotteries in Bengal.

WHEREAS it is expedient to make adequate provision for the improvement of Public Health, Sanitation, Hospitals, Agriculture and Industries within the Presidency of Bengal;

It is hereby enacted as follows:—

1. This Act may be called the Bengal State Lotteries Act, 1933.

2. It extends to the whole of Bengal.

3. It shall come into force on such date as the Local Government may, by notification in the *Calcutta Gazette*, direct.

Power of Local Government to start lotteries.

4. The Local Government may start Lotteries or issue licences for conducting Lotteries, to the Calcutta Corporation, Municipalities and District Boards in Bengal, or to any corporate body or association for raising funds for the improvement of public health, sanitation, hospitals, agriculture and industries in Bengal.

Rules.

5. The Local Government may, by notification in the *Calcutta Gazette*, make rules to carry out the purpose of the Act including the application of the funds raised under this Act.

STATEMENT OF OBJECTS AND REASONS.

It is a well-known fact that Public Health and Sanitation in Bengal are in a bad way, conditions of Hospitals are deplorable. It is very difficult for the ordinary people to get admission in these Hospitals, and even in Charitable Outdoor Dispensaries poor people have to pay for medicine in the mufassal. This has caused a great hardship. Improvement of Agriculture and Industries is also essential. These need a large amount of money. In the present state of finance, it is not possible for the Government to make adequate provision for all these. Enormous wealth is being drained out of the country by Foreign Sweep Stakes and also unlicensed Lotteries are held in the country serving no useful purpose. It is time for the Government to step in and utilise such money for the benefit of the province.

"he shall make a partition."

STATEMENT OF OBJECTS AND REASONS.

In partitioning an estate under the Bengal Estates Partition Act, V of 1897, rent-free or lakhiraj land cannot be partitioned without the consent of all the proprietors. Generally, such consent is not secured, and the result is such land is kept ejmali and the proprietors of the partitioned estates are to realise cesses according to their respective shares in the parent estate. These proprietors are to pay the cesses to Government whether they may be able to realise or not. Realisation of cesses by these proprietors becomes an impossibility in many cases, and the small co-sharer proprietors are put to much inconvenience and loss. It is, therefore, proposed by this Bill to have such lands partitioned without the consent of the parties concerned along with the partition of the parent estate.

(*ii*) nine Councillors shall be elected by non-communal registered Trade Unions functioning in Calcutta, and

(*iii*) one Councillor shall be elected by the Bengal Bus Syndicate, and

(*2*) in sub-clause (*ii*) of clause (*b*) of section 5, the word 'labouring' shall be omitted.

3. In Schedule III under the sub-heading " B—Special Constituencies "—

4. (*1*) The Wards mentioned in Schedule III to the said Act having more than one non-Muhammadan Councillor are hereby divided into as many Wards as there are such Councillors so as to have one non-Muhammadan Councillor for each Ward.

(*2*) Within one year from the date on which this Act is brought into force under sub-section (*2*) of section 1 or within such further time as may be appointed in this behalf by the Local Government, the Corporation of Calcutta shall fix a name for each Ward referred to in sub-section (*1*), and shall specify the respective boundaries thereof and shall forward the same to the Local Government.

STATEMENT OF OBJECTS AND REASONS.

Nowhere in the world the system of plural constituencies in the Municipalities exists. The system is bad in principle, as it does not fix the responsibility on anybody and was found to be very disadvantageous by the rate-payers. Accordingly, Kalighat has been separated from Bhowanipur, forming a separate Ward. When the Bill for separation of Kalighat was introduced, the Government could not support it, on the ground that piecemeal legislation was bad, and expressed their willingness to support a measure for changing all the plural constituencies into singular ones. This Bill, therefore, seems to remove these inconveniences and to make the Corporation of Calcutta really democratic by creating some seats for Labour, Bengal Bus Syndicate. It is unfortunate that Labour has been altogether ignored in Calcutta, whilst the Bombay Corporation has given Labour their proper representation.

3. **General.**—The total capital expenditure of the department in the year 1931-32 was Rs. 19,64,660 after deducting recoveries amounting to Rs. 1,22,410 on capital account.

The only important new projects under construction during the year under review were (1) the Damodar Irrigation Canal which has been designed to irrigate about 200,000 acres of land in the districts of Burdwan and Hooghly, (2) the Bakreswar Irrigation Project in the district of Birbhum designed to irrigate about 10,000 acres of paddy in a tract subject to frequent scarcity, and (3) the construction of locks and sluices on the Lower Kumar river which provides a short route from Calcutta to Eastern Bengal. The construction of the Damodar Canal was in progress during the year. The canal is now approaching completion and the revenue account will be opened during 1933-34 The work on the Bakreswar Canal was completed with the exception of construction of reaches Nos. 2 and 5 with bridges and regulators which were taken up during the year. The canal was partly opened during the year and irrigated 4,033 acres. The locks and sluices constructed on the Lower Kumar river were in operation during the year with the exception of Mustafapur sluice which, though completed, could not be operated owing to damage to the structure by scour.

Although many important schemes have been prepared and administratively approved, and others are under investigation, it has not been possible owing to lack of funds to undertake any big new schemes; nor is it likely that it will be possible to do so for some years to come. In these circumstances the present policy is to give attention mainly to small local schemes which may result in considerable benefit at a small cost, such as schemes for making small cuts from live rivers in order to introduce a supply of silt-laden water into the channels of rivers which have deteriorated.

In the year under report the Nadia and Jessore District Boards formulated a scheme for making a cut from the Mathabhanga to the Nabaganga which was warmly welcomed by the local public and has since been executed with the assistance of Government. Other similar schemes are under consideration.

Recently the Irrigation Department has been assisting the Public Health Department in conducting investigations into the possibility of introducing flood irrigation on an extended scale in certain areas in the Western Bengal.

The expenditure on the revenue account during the year amounted to Rs. 23,97,941 of which Rs. 2,49,278 were spent on irrigation works proper, the principal items being the Midnapore and the Eden Canals. The expenditure on the Midnapore Canal was Rs. 1,87,615 which included Rs 54,913 for maintenance and repairs and Rs. 1,29,311 for overhead charges of the canal. The rest of the expenditure was on navigation, embankment and drainage works.

The expenditure on navigation was mainly for maintenance of the steamer and boat routes from Calcutta to Eastern Bengal and Assam including reconstruction of the bridges over the Calcutta Canals and Tolly's Nala to the cost of which the Calcutta Improvement Trust and the Calcutta Corporation contribute in certain cases where improved bridges are required. The expenditure on the Calcutta and Eastern Canals was Rs. 4,56,972 including Rs. 1,26,596 on account of Government share of cost of reconstruction of the bridges over the Calcutta Canals. The expenditure on the Hijili Tidal Canal, the Sundarbans Steamer Route and the Madaripur Bil Route was Rs. 34,709, Rs. 1,80,610 and Rs. 2,55,808, respectively. The working expenses of these navigation works were lower than usual, but the revenue derived from them except the Hijili Tidal Canal further declined in the year under review. The decrease in the revenue receipts was due mainly to general trade depression.

This department is in charge of about 1,245 miles of embankments involving recurring charges for maintenance. As there was no flood of considerable magnitude during the year in the areas where embankments exist entailing heavy repairs, the expenditure on these embankments was normal. There were no additions to the length of public embankments and the policy of gradually abandoning protective embankments where circumstances render it feasible was continued and a length of about 10 miles was abandoned during the year. The amount spent on the maintenance of drainage works, such as

the Magrahat Drainage Project, came to about Rs. 73,181.

This department has also to deal with protection of towns from river erosion. The revetment which was constructed for protection of Serajganj was damaged by the great flood on the Jamuna in 1931 and the work of repairing it was taken up during the year. This revetment has checked the further progress of erosion and the main attack of the river is likely to move away from the town.

The dredger "Ronaldshay" was engaged in reclamation work for the Government of India in the Andamans up to the middle of November 1931. The capital and revenue accounts include receipts on account of hire paid by the Government of India during the year.

The following is a list of important works under execution or in charge of this department:—

(32) Training the Mahananda river.

(33) Bandalling the Dhalleswari and Buriganga rivers.

The last three works are carried on by the Joint Steamer Companies on behalf of this department.

While the receipts from the works decreased by Rs. 82,333 owing to the economic depression the reduction in working expenses amounted to Rs. 4,37,823 owing partly to the 10 per cent. reduction in salaries.

4. **The Damodar Canal Project.**—The total capital expenditure to end of the year 1931-32 (direct and indirect) was Rs 81,16,088 against Rs. 92,93,307—the amount of the revised estimate recently submitted to the Government of India for sanction of the Secretary of State.

5. **The Bakreswar Irrigation Scheme (Birbhum).**—The capital expenditure

to end of the year (direct and indirect) amounted to Rs. 6,71,307 against the estimated cost of Rs. 4,90,596. A revised estimate is under preparation.

The gross revenue and working expenses were Rs. 8,258 and Rs. 1,264, respectively.

6. **The Midnapore Canal.**—The canal consists of two weirs at Midnapore and Panskura, 65½ miles of main and branch canals used both for irrigation and navigation purposes and 284·97 miles of distributaries and village channels. No capital expenditure was incurred on the canal during the year. The area irrigated was 38,967 acres as against 51,541 acres in the previous year. The receipts and working expenses were Rs. 1,63,433 and Rs. 1,87,615, respectively, the result being a deficit of Rs. 24,182 against the net revenue of Rs. 2,659 in the previous year. The diminution in the area irrigated was due to the fact that many of the lapsed leases were not renewed during the year owing to heavy fall in the price of paddy and to fairly well distributed rainfall.

Since 1927 the area under irrigation has steadily fallen *pari passu* with the fall in the price of paddy. There have also been a general depression and money scarcity which have contributed to the decrease in receipts from irrigation. The reduction in navigation receipts is due (a) to the growing competition of railways, (b) to the construction of rice mills near railway stations which divert paddy to such mills and to railways in preference to transport by the canal, (c) to the general trade depression and consequent reduced transport of merchandise, (d) to the Civil Disobedience movement and Congress propaganda which have reduced the demand for water and the movement of produce.

7. **The Grand Trunk Canal Project.**—The project has been held in abeyance. The capital expenditure of Rs. 5,616 (direct and indirect) during the year was incurred on the upkeep of buildings on the acquired land and on petty establishment.

8. **The Hijili Tidal Canal.**—This canal with the Terapakia Pass Khal, Palaboni Khal and the khal leading to the Gewankhali lock entrance constitutes a navigation canal 49¾ miles in length. No capital expenditure was incurred on the canal during the year. The receipts and working expenses amounted to Rs. 71,685 and Rs. 34,709, respectively, the result being a net revenue of Rs. 36,976 as against the deficit of Rs. 35,736 in the previous year.

9. **Calcutta and Eastern Canals.**—These consist of natural and artificial navigation channels about 834 miles long for maintaining communication between Calcutta and Eastern Bengal. There was no capital outlay in this system during the year. The receipts and working expenses amounted to Rs. 4,05,370 and Rs. 4,56,972, respectively, the result being a deficit of Rs. 51,602 as against the deficit of Rs. 66,323 in the preceding year. The financial results are likely to improve further when the work of reconstructing the bridges over the Calcutta canals and Tolly's Nala is finished.

The reduction in receipts is mainly due to the depressed condition of the market and to the consequent reduction in the transport of merchandise and to the general economic conditions. The Bhangore Khal to the west of Bhangore has not been silt cleared for several years on account of the reduced resources of Government. The deeper draft boats such as those carrying timber from the Sunderbans have had to be detained for days on end pending a rise in water level in the canal during spring tides before they can cross this silted reach. This has discouraged the use of this canal by large boats.

10. **The Sunderbans Steamer Route.**—Is about 350 miles long. The revenue receipts and working expenses amounted to Rs. 58,101 and Rs. 1,80,610, respectively, the result being a deficit of Rs. 1,22,509 as against Rs. 3,56,950 in the previous year.

The reasons for reduced receipts are the depression in trade and scarcity of money and reduced movement of merchandise. The route has to be maintained in navigable condition even though the navigation thereon is reduced.

11. **The Madaripur Bil Route,** which is 38 miles in length, connects the Madhumati and Kumar rivers in the Faridpur district. A capital expenditure of Rs. 20,615 was incurred during the year on the construction of locks

and sluices on the route and the Lower Kumar river.

The revenue receipts and working expenses during the year were Rs 2,35,926 and Rs. 2,55,808, respectively, the result being a deficit of Rs. 19,882 as against a net revenue of Rs 7,039 in the preceding year. There was a fall in revenue due to (1) early diversion of steamer traffic to the Barisal route on account of silting in the Lower Kumar river and (2) depression in trade and scarcity of money. The route has to be maintained in navigable condition even though the navigation thereon is reduced.

12 **Dredger "Ronaldshay".**—The accounts of this dredger which were separated from those of the Grand Trunk Canal are being treated as "unproductive" under the orders of the Secretary of State. The total capital outlay to end of the year amounted to Rs. 49,41,730 The hire realised during the year on account of work done by the dredger amounted to Rs. 1,01,218, of which Rs. 91,866 was credited to capital account and the remainder to revenue account. The working expenses during the year exclusive of hire charges amounted to Rs. 45,194.

13. **Dredger "Cowley."**—The account of this dredger which was shown along with the dredger "Burdwan" up to end of 1930-31 has been separately treated in the accounts for 1931-32 in pursuance of the recommendation of the Bengal Legislative Committee on Public Accounts. The total capital outlay to end of the year amounted to Rs 46,99,592. The hire realised during the year on account of work done by the dredger amounted to Rs 14,882, of which Rs. 13,559 was credited to capital account and the remainder to revenue account. The working expenses during the year exclusive of hire charges amounted to Rs. 22,497.

14 **Dredger "Burdwan."**—As already explained, the account of this dredger has been separated during the year. The total capital outlay to end of the year amounted to Rs. 13,93,173. As the dredger was laid up throughout the year, no hire was earned by her. The working expenses during the year amounted to Rs. 7,616

15 **Dredger "Foyers."**—The accounts of this dredger have been separated from those of the Sunderbans Steamer Route with effect from the year under review. The net capital value of this old dredger has been reduced to nil. The hire realised by her during the year amounted to Rs. 35,775 which was credited to revenue. The working expenses exclusive of hire charges amounted to Rs 73,420

16. **Minor Irrigation, Navigation, Embankment and Drainage Works for which neither Capital nor Revenue accounts are kept.**—These include the Eden Canal, Amjore Weir, Salbund Weir, Orissa Coast Canal, Nadia rivers, Magrahat drainage scheme, Government embankments; surveys and other works enumerated in paragraph 3. The total working expenses on these works during the year amounted to Rs. 11,32,236 against Rs. 12,96,609 in the previous year.

17 **Surveys.**—Surveys and investigations were continued during the year in connection with certain irrigation works in Western Bengal and also in connection with the drainage problems in several districts of the Presidency. Among these (1) detailed survey of the Suvankar Danra Scheme in Bankura, (2) survey of the Ajoy Canal Scheme in Burdwan, (3) gauge and discharge observation of the Dolong river in Midnapore, (4) survey and investigation in connection with the construction of a sluice and dam at Noakhali, and (5) survey of a channel from Bhorasango to Peshkerhat in Chittagong were important.

18. **General economic conditions.**—The rainfall in the catchment areas of all the rivers during the year was normal and the outturn of crops were good. But the general economic conditions of the country were not favourable on account of trade depression and fall of prices of all commodities which accounted for the decrease in the navigation receipts.

Secretary to the Government of Bengal.

CALCUTTA, THE 6TH SEPTEMBER 1933.

RESOLUTION—No. 9364A.

It is with feelings of deep regret that the Governor in Council has to record the death at the hands of assassins of yet another District Magistrate of Midnapore, Mr. B. E. J. Burge, I.C.S., who was shot dead on the Police Football ground in Midnapore on the afternoon of the 2nd September 1933.

2. Mr. Burge possessed in a high degree those qualities of character and of leadership which especially distinguished the recruits taken into the Indian Civil Service immediately after the termination of the Great War. Joining the army in September 1914 he saw service in Egypt, the Dardanelles and India in the 3rd London Regiment and subsequently in the 23rd Rifle Brigade. In May 1921 he was demobilised and in October of that year entered the Indian Civil Service. After nearly two years at Midnapore and a short period as Subdivisional Officer of Serampore, he was attached to the Settlement Department in which he soon made his mark and in which the next eight years of his service were spent. In 1925 he was entrusted with the difficult settlement operations of the 24-Parganas district and in 1929 he officiated for a short period as Director of Land Records and Surveys. As his headquarters were in Calcutta Mr. Burge's athletic and social interests secured for him a wide circle of friends.

3. In November 1931 Mr. Burge was selected as Commandant of the Detention Camp at Hijli, and in May 1932 when Mr. Douglas was murdered in Midnapore, he was appointed in his place as Magistrate and Collector of that important district.

4. Mr. Burge took up his difficult task with characteristic imperturbability and fearless devotion to duty and rapidly made his influence felt. To a troubled district he brought a large measure of peace. As Chairman of the District Board he completed the work of his predecessors in restoring financial solvency and he initiated new schemes of which the most important was a proposal to bridge the Cossye river at Midnapore. He took a leading and personal part in convincing the inhabitants of Pingla and Narayangarh of the advantages of anti-malarial flushing schemes which have proved so beneficial in these areas though at first regarded locally with suspicion. For the cultivating classes amongst whom he spent many years of his service he had a warm sympathy. Mr. Burge succeeded in restoring public confidence amongst the townspeople of Midnapore itself where he leaves many friends with whom his relations were close and constant. The trading community in Midnapore gladly responded to his call for efforts to restore the prosperity of the town and as Chairman of the governing authorities of the local college and the collegiate school he laboured successfully to improve discipline and morale which under subversive influences had fallen to a low level. It was characteristic of his interest in the welfare of youth that he was about to take part in a football match in a local competition when, of necessity unarmed and detached from his guards, he was treacherously shot down before the eyes of his friends.

5. By the death of Mr. Burge Government have lost an administrative officer of proved capacity who by his keenness and thoroughness had won the confidence of his superiors and the respect of his subordinates. To his widow and relatives and all who mourn his loss the Governor in Council desires to extend a sincere expression of his deep sympathy.

By order of the Governor in Council,

1. **Vacancies.**—The following vacancies will be filled by direct appointments:—

Bengal Junior Civil Service	...	...	10

In addition to these appointments, two appointments in the Upper Division of the Bengal Secretariat clerical service will be available to candidates who qualify for appointment to the abovenamed service but whose places in the list are not sufficiently high to enable them to secure appointments to the Bengal Junior Civil Service.

They will later be brought on to such new scale of pay as may be determined. No direct appointment will be made to the Bengal Civil Service (Executive), the Bengal Police Service, the Bengal Excise Service, or the Bengal Junior Excise Service.

Each candidate will be required to specify in his application the service or services for which he desires to compete, placing them in the order of his preference, and *the choice thus indicated will be final.* Appointments will be assigned to successful competitors with due consideration of their choice and the number of vacancies in the services.

2. **Method of recruitment.**—The appointments will be made by competitive examination in the manner prescribed in Part B of Schedule II of the Bengal Provincial Services Recruitment Rules.

3. **Qualifications.**—The indispensable qualifications of a candidate are—

(*i*) that he is a native of Bengal or has a permanent domicile within the Presidency of Bengal;

(*ii*) that he is a natural born subject of His Majesty, or of an Indian State in respect of whom the Governor General in Council has made a declaration under section 96A of the Government of India Act;

Either copies attested by the nominating authorities or by responsible persons or originals of the certificates may be submitted.

etc. A candidate who passed the examination as a non-collegiate student shall send in his application to the Registrar, Calcutta University, together with a certificate of character signed by the Principal of his college if he was connected with one, and by the Magistrate of the district in which he is resident in other cases; candidates from the Dacca University shall apply to the Registrar, Dacca University. All other candidates (not included in the previously mentioned categories) shall apply to the Director of Public Instruction, Bengal:

Provided that in no case shall a candidate apply to more than one of these authorities, and that such application shall aways be made through their Durbars by persons resident in a State in India.

(*ii*) Applications shall be made, in the form shown in Schedule I, copies of which may be obtained from the heads of colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction.

(*iii*) No application will be taken into consideration by the receiving authority unless it is accompanied by non-judicial stamps of the value of Rs. 5 or a chalan showing payment into a Government treasury in Bengal of the sum of Rs. 5. This payment is obligatory whether such application is subsequently rejected or not. Applications stamped with postage stamps will not be accepted.

5. **Selection Committee.**– The Government of Bengal will appoint a Selection Committee to examine the applications of nominated candidates and their eligibility for admission to the examinations. This Committee will be composed of officials and non-officials in equal numbers and will be presided over by a high officer of Government.

6. **Nomination.**—The heads of colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction, Bengal, shall forward to the Selection Committee before the 25th November 1933, the applications of candidates nominated in accordance with the allotment of nominations shown in Schedule II and shall certify the moral character of each candidate so nominated. The application of non-collegiate students nominated by the Registrar of the Calcutta University should be supported by the character certificates mentioned in paragraph 3 above. In making these nominations, due regard should be paid to the desirability of different classes and communities being represented in the public service. Care should be taken to nominate only such candidates as are likely to pass the medical examination since experience shows that a considerable number of candidates successful in the literary examination fail to pass the medical test.

7. **Selection certificates.**—In order to make the appraisement of individual merits of candidates possible, the Selection Committee shall issue certificates of selection to such of the nominated candidates, not exceeding 200 in all, as it considers, qualified to appear at the examination. The selection or rejection of a candidate by the Selection Committee shall be final, and no candidate shall be admitted to the examination unless he holds such a certificate:

Provided that in making their choice the Selection Committee shall give all possible consideration to the cases of candidates of the minority communities and the backward classes and shall call for further nominations from the heads of colleges or Commissioners of Divisions if the number of selected Muhammadan candidates does not reach 45 per cent. of the total number selected.

8. **Particulars of candidates.**—The Selection Committee may require such further proof or particulars from the candidates as it may consider necessary, and may make enquiries regarding their character and domicile.

9. **Examination fee and time-table.**—Every candidate to whom a certificate of selection has been issued will, within a week from the date of its receipt, deposit in the nearest treasury in Bengal a sum of Rs. 50 as examination fee and forward the receipt for the same to the Secretary to the Selection Committee. No part of the fee will be returnable to a candidate. Delay in this respect may render a candidate's name liable to removal from the list of examinees. On complying with this requirement, the candidates will receive from the Secretary a time-table for the examination. The examination will commence on the 12th February 1934 and will be held at the Presidency College, Calcutta.

10. **Canvassing.**—Any attempt on the part of a candidate to enlist support for his application through persons of influence or officials of Government will disqualify him for appointment. Spontaneous recommendations from persons interested in the candidates, or otherwise known to them, will be disregarded.

11. **Ineligibility of Government servants.**—Unless specially exempted by Government by general or special order, no person holding a substantive appointment in Government service is eligible to appear at the competitive examinations. Whenever such exemption is granted, the candidate will be subject to selection by the Selection Committee, as if he were duly nominated under paragraph 6 above.

12. **Syllabus of examination and marks.**—The examinations will be held in the subjects and according to the syllabus shown in Schedule III which also indicates the numerical value to be attached to each paper at the examination.

As the possession of a knowledge of a provincial vernacular is an essential condition of appointment, candidates, whose ordinary spoken and written language is not Bengali, must take up translation from English into one of the provincial vernaculars named below:—

(*i*) Bengali,
(*ii*) Hindi,
(*iii*) Urdu,
(*iv*) Nepali,

and *vice versa* in the compulsory paper. Successful candidates, however, who have offered any language other than Bengali in that paper and are appointed to a service for which there is a Departmental Examination, will be required to pass completely the Departmental Examinations in Bengali within two years of the date of their appointment to the service.

13. **Medical Examination.**—As soon as the results of the examinations have been declared, a proportion of the candidates who have qualified will be called upon to appear before a Medical Board for a certificate of their fitness for Government service in form A of Schedule IV of the Bengal Provincial Services Recruitment Rules. An order to appear before the Medical Board must not however be understood to mean that the candidate, if found fit, will necessarily receive an appointment as the number of candidates who will be summoned for medical examination will be slightly in excess of the total number of vacancies, and the question of his appointment will depend upon the results of the medical examination taken as a whole. The regulations governing the physical examination of candidates are set forth in Schedule IV of the Bengal Provincial Services Recruitment Rules and intending candidates are advised before they apply for admission to the examination to satisfy themselves that they are likely to qualify as physically fit under those regulations, for recent experience has shown that a considerable number of the candidates at the competitive examinations are subsequently rejected by the Medical Board as unfit.

Chief Secy. to the Govt. of Bengal (offg.).

Note.—The attention of the candidates is invited to the introduction of a *viva-voce* test (*vide* page 13, Schedule III).

The 28th August 1933.

The following notification made by the High Court of Judicature at Fort William

in Bengal, in the exercise of the power vested in it by section 37 of the Letters Patent, is published for general information:—

Notification No. 22691G.

Notwithstanding anything contained in the Appellate Side Rules concerned with the preparation of paper-books, such changes in the manner and procedure of their preparation and such reduction of fees and costs relating thereto as are hereby notified will take effect on and from the 13th November 1933, and until further orders, and will apply—

(*1*) in the case of First Appeals from Decrees and Orders, from the time when the translations of vernacular documents for inclusion in the paper-books are submitted for examination whether on or after that date, and

(*2*) in the case of Second Appeals, to all such appeals filed on and after the aforesaid date.

(A) (*i*) *Paper-books in First Appeals valued at Rs. 10,000 or more* will be prepared entirely in the Court's office save only that the translation will be made by the appellant's advocate, the examination being done by the existing panel of examiners on fee system, as at present;

(*ii*) transcribing (including the examination of manuscripts) will be done by the Court's office;

(*iii*) printing charges will be reduced from Re. 1-6 to Re. 1-3 per page;

(*iv*) a list of some approved Presses (including the Bengal Government Press) will be maintained and the printing work will be done by them only.

(B) (*i*) *Paper books in First Appeals valued at less than Rs. 10,000* will be prepared entirely in the office of the appellant's advocate, the examination of translations being done on the fee system by a new panel of examiners;

(*ii*) this panel of examiners will be formed from the practising advocates of the Court from which the respondent will select an examiner for examining the translation made by the appellant's advocate. If, however, the respondent fails to enter appearance by the time the appellant submits his translations for examination, he loses his privilege to select the examiner. In such cases, the translations will be examined by the existing panel of examiners.

In all such appeals as come under categories A and B above, the entire estimates for the preparation of the paper-books will, however, continue to be prepared in the office of the Court and served on the parties, upon their filing their "Lists of Papers" as at present. The Court will collect the money due on such estimates from the parties, and from such collection will keep the undertaking advocates in funds necessary for the preparation of the paper-books. When the paper-books are finally prepared, the costs shall be taxed under the direction of the Registrar.

(C) *In the case of Second Appeals exceeding Rs. 50 in value*, the Court have decided to dispense with printed paper-books. Before preliminary hearing for admission of the appeal, that is, as soon as the appeal is registered and given a number, the appellant will be required to pay Rs. 10 only, and four typed copies will be prepared in the Court's office, of which two will be for the Court and two will be given to the appellant, to be used both at the preliminary as well as the final hearing; and after admission, as the respondent or separate sets of respondents enter appearance through different advocates, they will be charged at the rate of Rs. 5 each. The appellant will have to supply a copy to the Deputy Registrar if there is a minor whom he represents; he can do so out of the copies which he has received or by purchasing a copy for Rs. 5.

(D) *In the case of Second Appeals not exceeding Rs. 50 in value*, the existing system will continue and there will be no levying of compulsory charges on the litigants. After admission of the appeal, however, four copies of typewritten paper-books will be prepared (instead of two, as at present) in the Court's office, of which two will be kept for the use of the Court, one will be given to the Deputy Registrar, if there is a minor for whom he will have to appear, and the remaining copy will sell for Rs. 3, if the appellant or the respondent chooses to purchase the same.

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 2896L.C.—4th September, 1933.—In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 14th August, 1933, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL TENANCY (AMENDMENT) BILL, 1933

A

BILL

to amend the Bengal Tenancy Act, 1885.

WHEREAS it is expedient to further amend the Bengal Tenancy Act, 1885 (as amended by the Bengal Tenancy Amendment Act, 1928);

AND WHEREAS the previous sanction of the Governor General has been obtained under sub-section (*3*) of section 80A of the Government of India Act to the passing of this Act; 5 and 6 Geo. V, c. 61; 6 and 7 Geo. V, c. 37; 9 and 10, Geo. V, c. 101.

It is hereby enacted as follows:—

1. This Act shall be called "The Bengal Tenancy (Amendment) Act, 1933."

2. It shall come into force as soon as it is published in the local official Gazette.

3. In section 3, sub-section (*17*), clause (*ii*), the words "or is" shall be omitted.

4. In section 22, sub-section (*2*), the following further proviso shall be added:

"Provided further a suit for the recovery of such sum for use and occupation shall for all purposes be regarded as a suit for rent."

5. After section 48H, sub-clause (*3*), the following explanation shall be added:—

"*Explanation* (*i*).—The landlord is entitled to recover by suit any sum due to him as landlord's fee.

Explanation (*ii*).—Explanation (*i*) shall apply with retrospective effect.

6. In section 76, sub-section (*2*), after clause (*f*), the following clause (*g*) shall be added:—

"(*g*) The erection of a mosque or temple or any other place of worship whether of masonry bricks or any other material whatsoever."

7. In section 155 after sub-section (*1*), the following proviso shall be added:—

"Provided that the building of a mosque, a temple or any other place of worship or the conversion of a portion of a holding into a burial-ground or burning-ghat which does not take away more than one-eighth of the area of the holding from cultivation or other purposes of the tenancy is not a misuse within the meaning of this section.

8. In section 174 after sub-section (*3*), clauses (*a*) and (*b*), the following further proviso shall be added:—

"Provided also that the provision of section 18 of the Indian Limitation Act, 1908, shall apply to an application under this sub-section."

STATEMENT OF OBJECTS AND REASONS.

This Bill is introduced to amend certain procedural laws under the Bengal Tenancy Act which in actual practice are found difficult to work or otherwise produce hardship. There are declaratory provisions also which have been necessitated by certain decisions of the Calcutta High Court creating difficulties in the way of the enforcement of a legal right under the general law. Other provisions are more general and seek to remove certain kinds of hardship.

Clause 3 is intended to help the plaintiff in the choice of a forum. Under the present Act the burgadar not being a tenant, a suit against a burgadar for a share of the produce up to Rs. 500 must be instituted in the Court of Small Causes. Under the present Act also the Court of institution is to determine the status of a burgadar, *i.e.*, whether the burgadar is a tenant or not. If he is a tenant, he has got a title to the land and as such a Court of Small Causes is precluded by law to enter into that question The result is a deadlock and specially so if the burgadar takes the plea of tenancy The Courts in order to avoid this difficulty generally dismiss the suits which unfortunately are unappealable To avoid this difficulty the amendment is introduced.

Sub-section (*2*) of section 22 unnecessarily takes away the right of appeal formerly enjoyed by bringing such suit within the jurisdiction of Courts of Small Causes. Clause 4 seeks to remove this defect.

Clause 5 is a declaratory clause necessitated by the decision of Mr. Justice Jack in Sukchand Halder *vs.* Jogeswar Mandle reported in 35 C. W. N., p. 974 (Rev. No. 290 of 1931) which it seems is contrary to the theory of the enforcement of a legal right under the general law. If a person is entitled to a sum of money, he can recover that sum by suit under the general law without the express provision of a statute. The provision is given retrospective effect in order to save many pending suits. The original section ought to have been more explicit. Clauses 6 and 7 are intended to remove certain kinds of hardship suffered by tenants and are only declaratory in nature.

Clause 8 is a necessary provision for protection against fraud.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 2897L.C.—4th September, 1933.—The following report of the Select Committee on the Bengal Mela Sanitation Bill, 1932, by Khan Bahadur Maulvi Azizul Haque, M.L.C., is hereby published for general information.

J. W. McKAY,
Secy. to the Bengal Legis. Council.

Report of the Select Committee on the Bengal Mela Sanitation Bill, 1932, by Khan Bahadur M. Azizul Haque, M.L.C.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Mela Sanitation Bill, 1932, was referred by a motion carried in the Bengal Legislative Council on the 22nd November, 1932, beg to submit this our report on the Bill.

A preliminary report was presented to the Council on the 23rd February, 1933, stating that the Committee had not been able to deal with the Bill within the time directed by the Council.

The Committee met for the first time on the 15th December, 1932 and held its final sitting on the 24th August, 1933.

On a detailed examination of the Bill, the Select Committee found that there were existing provisions in the Bengal Local Self-Government Act of 1885, which dealt fully with the subject matter of the Bill in so far as local bodies, other than municipalities, were concerned, but that the Bengal Municipal Act, 1932, did not include similar provisions for municipalities.

Having regard to the long title and preamble of the Bill as referred to the Select Committee we were left with two alternatives, viz :—

(*1*) to repeal the provisions in existing law in regard to the local bodies other than municipalities and include them in one self-contained "Bengal Mela Sanitation Bill" governing all local bodies, or

(*2*) to report to the Council that we saw no reason to repeal the provisions in existing law and that in so far as municipalities are concerned steps may be taken to introduce a Bill to amend the Bengal Municipal Act by inserting provisions similar to sections 100A, 100B and 100D of the Bengal Local Self-Government Act of 1885.

We have decided, with the concurrence of the member in charge of the Bill, to adopt the latter alternative.

We recommend therefore that Government, as soon as a suitable opportunity offers, should include in a Bill for the amendment of the Bengal Municipal Act, 1932, the following provisions which, we consider, would carry out fully the purposes of the Bill in so far as the law in this connection does not at present apply to municipalities :—

"*Order of the Commissioners requiring licences for* melas.—The Commissioners of a municipality may issue an order requiring the owner or the lessee of a *mela* or the owner or the lessee of any land who intends to establish a *mela* thereon, to obtain a licence in this behalf from the Commissioners on such terms and conditions, including conditions as to sanitation, and on payment of such fees as the Local Government may by rules prescribe.

Owner not to hold mela *without a licence.*—When the Commissioners of a municipality have issued an order under the foregoing section no owner or lessee of a *mela* and no owner or lessee of any land who intends to establish a *mela* thereon, shall hold a *mela* except in accordance with the terms and conditions of the licence under that section.

Prohibition of prostitution within melas.—The Commissioners of a municipality may, by public notice, issued at least one month before the date of any *mela*, prohibit prostitution within such *mela* or within such area around the *mela* as may be fixed by the Commissioners."

Power should also be given to the Local Government to make rules in this behalf.

We accordingly recommend that the present Bill be withdrawn.
